County of Gallatin

311 W. Main, Courthouse • Bozeman, Montana 59715

December 31, 2015

To the Board of County Commissioners and the Citizens of Gallatin County, Montana:

State law requires that all general-purpose local governments publish, within six months of the close of each fiscal year, a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the annual financial report (AFR) of Gallatin County (hereafter referred to as County) for the fiscal year ended June 30, 2015.

This report consists of management's representations concerning the finances of the County. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, County management has established a comprehensive internal control framework that is designed both to protect the County's assets from loss, theft, or misuse, to compile sufficient reliable information for the preparation of the County's financial statements and comply with laws and regulations in conformity with accounting principles generally accepted in the United States of America. Because the cost of internal controls should not outweigh their benefits, the County's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The financial statements of the County have been audited by Anderson ZurMuehlen and Company P.C., a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the County for the fiscal year ended June 30, 2015 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering unmodified opinions over the County's basic financial statement opinion units, as listed in the accompanying table of contents for the fiscal year ended June 30, 2015. The independent auditor's report is presented at the front of the financial section of this report.

The independent audit of the financial statements was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also an opinion on the audited government's internal controls with legal requirements, with special emphasis on internal controls and render an opinion on compliance involving the administration of major federal awards.

The County is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984, as amended in 1996, and Title 2 of the United States Code of Federal Regulations part 200 (Uniform Guidance). Information related to this single audit, including the schedule of expenditures of federal awards (SEFA) and the auditor's reports on internal control over financial reporting and compliance with other matters under Government Auditing Standards and in accordance Title 2 is included in the single audit section of this report.

Management is required to provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The County's MD&A can be found immediately following the report of the independent auditors.

Profile of Gallatin County

The County, established as a commission form of government in 1863, is located in the southwestern part of the State of Montana. The County government is comprised of a three-member Commission. Commissioners are elected at-large and serve staggered six-year terms. There are twelve other elected officials, with nine serving four-year terms and the three district court judges serving six-year terms. The County seat is located in Bozeman, Montana.

The County has a land area of approximately 2,632 square miles and an estimated population of 97,304. The population of the County is predominantly urban with the majority of the residents living within a twenty-mile radius of Bozeman. The County is empowered to levy a property tax on both real and personal property located within its boundaries.

Government

Gallatin County government provides a full range of services to its residents and visitors. General governmental functions include judicial and legal services, public records administration, election services, financial services, planning services and public and home school support. Public safety activities include law enforcement sheriff, fire protection, coroner, search and rescue, emergency services and detention services. The County provides public works functions associated with transportation (road and bridge) maintenance, lighting districts, weed control, building maintenance, solid waste services and cemetery services. The public health activity supports the rest home, environmental health, human services, mental health, water quality, mosquito control and predatory animal control. Finally, the County supports recreational and other functions through agriculture extension agents (4-H), fair, senior programs, open space, parks, library, and conservation services.

The annual budget serves as the foundation for the County's financial planning and control. The County begins the budget process by developing a 'Start-Up' budget that takes into consideration available resources and anticipated changes. The 'Start-Up' budget is sent to all agencies, then Elected Officials, Department Heads and Managers of the County are required to submit requests for appropriation to the Finance Office before June 10th of each year, or on a date designated by the County Commission. The Finance Office for the County uses these requests to identify changes requiring additional funding above the 'Start-Up' Budget. The County Commission holds all day work sessions in mid-June to approve, amend, table or deny department requests. The Commission adopts by resolution, the Preliminary Budget in early July and holds public hearings on the Preliminary Budget through July and into August. Upon receipt of the Certified Taxable Valuation and actual cash available, the Commission makes decisions on

any requests received during the public hearings as well as on any items tabled during the work sessions. Then on the last Tuesday of August, the Final Operating and Capital Budget is adopted along with the approval of the mills needed to fund the Budget by resolution. The appropriated budget is prepared by fund (General Fund), function (Public Safety), and department (Sheriff). The Commission approves any increase or decrease in the budget or a transfer of appropriation between personnel, operations, debt, and capital outlay.

The objective of the County's budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the County Commission. Activities of the general fund, all special revenue funds, debt service funds, capital project funds, enterprise and interdepartmental funds and trust and agency funds have budgets adopted annually. These budgets delineate the total amount of expenditures budgeted by fund total with the exception of the general, public health and public safety funds which include department totals. Budgetary comparisons are presented in fund and activity detail.

Factors Affecting Economic Condition

The information presented in the financial statements is perhaps best understood when it is considered from a broader perspective of the specific environment in which the County operates.

The County experienced the effects of the national recession, which began locally in FY 2009 with a significant slowdown in residential and commercial construction throughout the County. This corresponded with a decrease in values for both commercial and residential property of up to 35%. In addition, the County saw reductions in document recordings, septic permits, addressing, applications for subdivision / zoning / variances and tonnage at the landfill. In the last six years, the County saw steady growth, with FY 2014-2015 construction permits similar to the highest years prior to the recession. In FY 2015-2016 construction and building values have continued to rebound and are estimated to be at pre-recession levels.

Property tax revenues have grown at an average of 5% per year since 2008. The largest growth in property taxes occurred in FY 2010 with the beginning of the Detention Center bond, and the lowest change being -0.11% in FY 2013. FY 2016 tax increase is 4.36% compared to 3.68% the previous year.

The County has seen unemployment go from the low in 2006 of 2.0% to a high in 2009 of 6.0% and to 2.5% as of July 2015. The County's unemployment is significantly below the State's unemployment rate of 4.0%, and the national rate of 5.0%. Bozeman's economy is expanding from growth at Montana State University, becoming a regional retail center, recognition of the area as a technology hub, increased visitation to Yellowstone National Park, along with the recreational opportunities throughout the year for the area.

Strategic Process

The County continues to use planning processes (long-term, mid-term and short-term), to help guide the government and to ensure decisions are made in the best interest of the organization as a whole and with an eye toward the future. Efforts are made to ensure each planning component process is in alignment with one another. This creates a 'linkage' that assures short-term decisions are consistent with the values of the County as identified in the mid-term and long-term plans adopted by the County.

The elements of the County's planning process have unique purposes and timeframes. The County's Mission, Vision Statements, and Growth Policy are the most far reaching in nature (20 to 25 years). The Capital Improvement Program, Core Rolling Stock, and Bridge Replacement programs along with the Five-Year Financial Forecast are mid-term in nature (5 to 10 years). The Annual Budget and the Capital Budget are short-term (1 to 2 year) timeframe. The most important requisite is that each of these processes continue to be coordinated.

The three mid-term programs started with the creation of the Capital Improvement Plan (CIP). The Capital Improvement Plan Committee (CIPC) asks each department to identify and prioritize future needs along with identifying any potential funding for the request. The CIPC reviews, analyzes, and rates the requests over a two month period, and then the CIPC presents their recommendation to the Commission in March of each year as part of the budget process. The CIP provides an essential tool for managing capital improvements and replacements in the future. Since CIP is designed to deal with large capital expenditures, valued greater than \$50,000, and a useful life of 5 years or greater, staff identified several major areas that needed to be considered. The first was the identification and funding of 'Core' rolling stock – sheriff vehicles, fire engines, road and bridge rolling stock, etc. The program identified vehicles that were needed to maintain County operations on an ongoing basis with a new value of \$25,000, including equipment, and had a useful life of 5 years or greater. The plan calls for funding of up to \$600,000 per year from Newly Taxable Property (NTP). The County approved the 'Core Rolling Stock' program in 2010. The next program, approved in 2012, was the Bridge Replacement Program. This program calls for the funding of up to \$500,000 from NTP to replacement of bridges with a span of greater than 30' or to support the Bridge Department's need to replace bridges in an emergency. The current funding is \$400,000 per year.

Finance / Budget

Financial policies are guidelines for operational and strategic decision making related to financial matters, as they identify acceptable and unacceptable courses of action, establish parameters within which the government can operate, and provide a standard against which the government's fiscal performance can be judged. The County's annual budget is developed in accordance with the policies and priorities set forth in the Commission's goals, identified needs of the County, and state and federal laws. Program/project priorities and service levels are established during the budget preparation and approval process.

In FY 2015, the County adopted a resolution approving a 'Sustainable and Resilient' Budget. The County seeks to maintain a diversified and stable revenue base to protect itself from short-term fluctuations in any one revenue source. In addition, the Commission sets a goal of maintaining operating reserves at the same percentage as previous years for all tax supported funds and to encourage other funds to establish operating reserves.

The County aggressively collects real and personal property taxes throughout the year. The delinquent taxes for the 2014 tax year (collected in FY 2015) were 2.01%. The total of all delinquent real property taxes was 2.24% of the taxes billed in FY 2015. The County will aggressively pursue opportunities for Private, Federal and State grants for all activities, which assures citizens that the County is striving to obtain all funds. These grants may reduce the reliance on the local taxpayer in the short-term for the support of needed public services.

The County makes current expenditures with current revenues, avoiding procedures that balance current budgets by postponing needed expenditures, accruing future revenues, or rolling over short-term debt. We set fees and rates at levels which fully recover the total direct and indirect costs, including personnel, operations, capital outlay and debt, within allowances of law. The County recognizes that accounting principles generally accepted for local governments discourage the “earmarking” of General Fund revenues, and accordingly, the practice of designating General Fund revenues for specific programs is minimized in the County’s management of its fiscal affairs. This concept has been extended to the Public Safety fund as well.

Revenues are estimated in a conservative, but realistic manner based on historic changes and current department experiences. These revenue estimates serve to minimize the adverse impact of revenue shortfalls and also reduce the need for mid-year spending reductions.

The County prioritizes one-time revenues to fund capital assets or other one-time expenditures. In this context, one-time revenues include the appropriation of cash balances from the previous fiscal year, excluding Operating Reserves. Using one-time revenues to fund on-going expenditures may result in incurring future year expenditure obligations, which may be unfunded. Using one-time revenues to fund capital assets or other non-recurring expenditures adheres to the Commission’s goal and better enables future administrations and Commissions to cope with the financial problems when these revenue sources are discontinued, since these expenditures can more easily be delayed or eliminated.

The County operates an investment pool for idle cash belonging to the County, all school districts, all fire districts, and other small local agencies. The investments of the County are managed by the Treasurer with support from an investment committee. The County has formally adopted an investment policy established by the Treasurer and Committee, which outlines investment goals and strategies. It has been the intent of the County to add additional stability for the overall portfolio by creating a “laddering strategy” using repurchase agreements, State Investment Pool, treasury bills, agency notes and certificates of deposit.

Although the County has an expanding economic base, the increased demand for government services that accompanies development has exceeded the growth in revenues. The State increased this shortfall, for Gallatin County, with the approval of House Bill 124, which was to provide major tax reform for local governments. This bill replaced the funding structure dependent on motor vehicle, gaming revenues and banking license tax, with an entitlement from the State. A separate bill, Senate Bill 176, in conjunction with HB 124 transferred the responsibility for District Court, Public Assistance, Youth Probation and Public Defenders to the State. For Gallatin County, which has seen significant growth in all areas, the effect has been a reduction in available revenues from what would have been received before House Bill 124. This is because the entitlement share has been frozen in the past and only grows based on the legislature’s approval of a population and consumer price index adjustment. The legislature recognized that the cost of health insurance for a local government was prohibitive in light of restrictions associated with 15-10-420 Montana Code Annotated (MCA) and authorized increasing mills to cover premium increases.

Debt Service

The Commission submitted two Open Space Bond issues and the Detention Center Bond issue to voters. The first Open Space Bond of \$10 Million was approved in November, 2000 with the second Open Space Bond of \$10 Million approved in November of 2004. The Open Space program allowed the County to purchase 100 acres for a regional park, authorized conservation easements throughout the County through the ability to leverage private and federal funds for easements.

The Detention Center \$32 Million Bond was approved in November, 2008. This bond allowed the County to replace an aging facility with occupancy of 45-60 with a facility constructed with 160 beds and a capacity of 200 before additional construction is necessary. In addition, the voters approved an increase from 1.5 to 5 mills plus growth allowed by state law for the County Library. This allows the County to adequately support the five city/town libraries in the County. The voters also approved the levying of nine mills, plus growth allowed by state law, for Enhanced Dispatch activities. This allowed for ongoing funding from a reliable revenue source for dispatch as well as funding for the dispatch center.

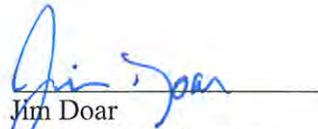

Acknowledgements

The preparation of this report would not have been possible without the efficient and dedicated services of the finance accountant and staff. We would like to express our appreciation to all members of the departments who assisted and contributed to the preparation of this report. Special thanks to Jill Therrien for her dedication towards the completion of this report. Credit must also be given to the Board of County Commissioners and County Administrator for their unfailing support for maintaining the highest standards of professionalism in the management of Gallatin County's finances.

Respectfully submitted:

Charlotte Mills

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

To the Board of County Commissioners
Gallatin County, State of Montana

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Gallatin County, State of Montana (the County), as of and for the year ended June 30, 2015, and related notes to the financial statements which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the County as of June 30, 2015, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note F to the financial statements, Gallatin County has adopted the provisions of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* and GASB Statement No. 71 *Pension Transition for Contributions Made Subsequent to the Measurement Date*, which has resulted in a restatement of the net position as of July 1, 2014. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, Schedule of Funding Progress- Other Postemployment Benefits (OPEB), Schedule of Proportionate Net Pension Liability, and Schedule of Contributions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The introductory section, supplemental information, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying

accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section, supplemental information, and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated January 25, 2016, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

Anderson Zur Muehlen & Co., P.C.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Gallatin County, Montana
Management's Discussion and Analysis
Fiscal Year Ended June 30, 2015

The Board of County Commissioners, with assistance from County Elected Officials, the County Administrator and their staffs, present the following Management Discussion and Analysis (MD&A). As management of Gallatin County, Montana, we have prepared Gallatin County's basic financial statements along with this comparative narrative overview and analysis of the financial activities of Gallatin County for the fiscal year ended June 30, 2015. We encourage readers to consider the information in this MD&A in conjunction with the rest of the annual report.

FINANCIAL HIGHLIGHTS:

The financial statements presented herein include all activities of Gallatin County, Montana, (the County) using the integrated approach as prescribed by the Government Accounting Standards Boards (GASB) Statement No. 34.

- As of June 30, 2015, Gallatin County's governmental funds reported combined ending fund balances of \$40,443,097, compared with \$35,097,452 at June 30, 2014. The fund balance for the General Fund is \$4,922,832 – up \$919,894 from June 30, 2014. The increase is attributed to revenue increases associated with land use and planned use of working capital;
- Gallatin County continues to maintain a good financial standing because of positive property tax base, adoption of Growth Policy, setting aside of most Newly Taxable Property for capital projects and adoption and full funding of 'Core Rolling Stock' Vehicle Replacement Program, and Bridge Replacement Program.
- Gallatin County's primary government assets exceeded its liabilities at June 30, 2015 by \$141.1 million (net position), compared with \$161.2 million at June 30, 2014. Of this amount, \$35.4 million (25.1%) is unrestricted and may be used to meet the government's general obligations to citizens and creditors.
- The total net position decreased by \$20.1 million. The current year decrease comes from the recording of Net Pension Liability for the first time and an increase in other long-term Liabilities.
- Revenues from Taxes/Assessments were \$34,704,604 for governmental activities, up \$1,396,601 from fiscal year 2014. This increase primarily comes from an increase in valuations associated with new construction and increases in mill levies as allowed by law.
- The County Health Insurance Fund saw continued positive financial position as represented by unreserved cash in FY 2015 of \$2,470,759 (cash \$2,714,858 – Claims and Accounts Payable \$244,099), compared to unreserved cash in FY 2010 of \$2.4M, FY 2011 of \$2.5M, FY 2012 of \$2.5M, FY 2013 of \$2.4M and FY 2014 of \$2.0M.
- The County's debt (excluding OPEB and Pension liability) for Governmental Activity debt decreased by \$3,200,772 to \$51,023,159 with Business-Type Activity debt decreasing \$42,062 to \$2,977,396 with total debt decreasing by \$3,242,834 during fiscal year 2015.

OVERVIEW OF THE ANNUAL REPORT:

This discussion and analysis is intended to serve as an introduction to Gallatin County's basic financial statements. The basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves. These components are described below:

Government-Wide Financial Statements: The *government-wide financial statements* are designed to provide readers with a broad overview of Gallatin County's finances in a manner similar to a private-sector business. One of the most important questions asked about the County's finances is, "Is the County as a whole better off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities reports help answer this question. These statements include all assets and liabilities, including long-term debt, using the accrual basis of accounting which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. Additionally, certain reductions have occurred as prescribed by the statements regarding interfund activity, payables and receivables.

These two statements report the County's net position and changes therein. The County's net position – the difference between assets and liabilities – is one way to measure the financial position of the County. Over time, increases or decreases in the County's net position are an indicator of whether the financial health is improving or deteriorating. Non-financial factors such as changes in the County's property tax base or the condition of the County roads/bridges also need to be considered in assessing the financial position of the County.

The Statement of Net Position and the Statement of Activities distinguish between the following activities:

- **Governmental Activities** – most of the County's basic services are reported here, including general government, public safety, public works, public health and other governmental activities. Property taxes, local option vehicle taxes and state and federal grants finance most of these activities.
- **Business-type Activities** – the County charges a fee to customers to recover the cost of certain services. These activities include Gallatin County Solid Waste District, Gallatin County Rest Home and West Yellowstone/Hebgen Refuse District.
- **Component Units** (Activity that the County supports and appoints a majority of the board (Airport Authority was previously a Component Unit)) The County does not have any component units for FY 2015.

Fund Financial Statements: A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The fund financial statements provide detailed information about the most significant funds, not the County as a whole. Some funds are required by State law or by bond covenants. Also, the Board of the County Commissioners establishes funds to control and manage money for particular purposes or to meet legal responsibilities for using certain taxes, grants, fees and other money. Examples include separate grant funds, Local Water Quality District and Rural Improvement District (RID) maintenance and bond funds.

The County maintains two types of funds, governmental and proprietary, which use different accounting approaches.

Governmental Funds: *Governmental Funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. These funds focus on how money flows into and out of the funds and the balances left at year-end that are available for spending. These funds use the modified accrual method of accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the County's general government operations and the basic services provided. Such information may be useful in evaluating a government's near-term financing requirements. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

Gallatin County maintains individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the general fund, the public safety fund, RID maintenance and bond compilation, which are considered major funds. Data from the other 96 non-major governmental funds are combined into a single, aggregated presentation. Individual fund data for each of the non-major governmental funds is provided in the combining statements elsewhere in this report.

Proprietary Funds: Gallatin County maintains two different types of *Proprietary Funds*; Enterprise funds and Internal Service funds. *Enterprise funds* are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for the landfill, rest home and refuse district operations. *Internal Service funds* are used to accumulate and allocate costs internally among the County's various functions. The County uses internal service funds to account for motor pool, employee health insurance, facilities, central communications, copiers and liability/property insurance services. Because these services predominantly benefit governmental services rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities, but provide more detail and additional information, such as cash flows, for proprietary funds.

Fiduciary Funds: *Fiduciary Funds* are used to account for resources held for the benefit of parties outside County government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support Gallatin County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to the financial statements: The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information: The basic financial statements are followed by the supplementary information section. This section includes other information not included in the previous statements.

THE COUNTY AS A WHOLE

The government-wide financial statements are found in the Basic Financial Statement Section of this report.

Government Activities – Most of Gallatin County's basic services are reported in this category, including:

General Government:

Elected Offices

County Attorney, Auditor, Clerk & Recorder/Surveyor, Commission, Justice of the Peace, Clerk of District Court/Public Administrator, and Treasurer/Assessor.

Departments

County Administrator, Compliance, Court Services, Finance, Human Resources, Information Technology, and Community Development/ Planning.

Public Safety:

Elected Offices

County Sheriff, Coroner.

Departments

Disaster & Emergency Services, Dispatch Services, Fire Marshal, Detention Services (Adult & Juvenile), Hazardous Materials Incident Services, Search & Rescue.

Public Works:

Departments

Airport at Three Forks, Bridge, Facilities/Procurement, Junk Vehicle, Noxious Weed Control, Road, Facilities, Rural Improvement Maintenance, and Refuse/Solid Waste.

Public Health:

Departments/Agencies –

Alcohol Rehabilitation, City/County Health (Administration, Human Services and Environmental Services), Mental Health, Senior Citizens, Cemetery Districts, Mosquito Control, and Water Quality.

Economic Development:

Economic Development, Extension Agents.

Culture and Recreation:

Library, Fair, and Parks.

Conservation and Natural Resources:

Open Lands Board, Open Space Bond, Open Space Bond Repayment.

Debt Service:

General Obligation Bonds, Loans Payable, Lease Purchases, Rural Special Improvement Bonds and Compensated Balances.

Business Type Activities – In this activity, fees charged to users are designed to cover all or most of the cost of the services provided. The County uses fees as the principle revenue source for landfill, refuse and rest home services.

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. Gallatin County's Net Position (assets exceed liabilities) is \$141,050,471 as of June 30, 2015.

The County provided condensed financial information for fiscal years 2010 through 2012. Comparative information is available for years 2012, 2013 and 2014 for Gallatin County. The analysis that follows focuses on the County's Net Position for governmental and business activities. Net Position– Unrestricted decreased by \$3.0M from carry-over of projects.

This indicator requires several years of comparative information to show trends and variances. For Gallatin County, the following table shows the net amount assets exceeded liabilities.

Fiscal Year 2010 (June 30, 2010)	151,075,768
Fiscal Year 2011 (June 30, 2011)	157,349,141
Fiscal Year 2012 (June 30, 2012)	159,047,106
Fiscal Year 2013 (June 30, 2013)	158,232,971
Fiscal Year 2014 (June 30, 2014)	161,190,325
Fiscal Year 2015 (June 30, 2015)	141,050,471

Net Position is separated into Invested in Capital Assets at 77%, Restricted at 14%, and Unrestricted Net Position at 10%. Unrestricted assets are used to meet the County's ongoing obligations. At the end of the current fiscal year Gallatin County is able to report positive balances in all three categories of net position, both for the government as a whole, and for its separate governmental and business-type activities.

The County's changes in net assets are shown in the following table. The report shows that primary governmental activities decreased net position to \$141,050,471, compared to 2014's \$161,190,325, with 2013 at \$158,232,971, fiscal year 2012's being \$159,047,106, fiscal year 2011's \$157,349,141, and fiscal year 2010's \$151,075,768. The portion Business-Type Activities shows a decrease in net position to \$18,316,728, a decrease of \$2,910,716.

Government Activities

Gallatin County spent \$48,884,521 for governmental activities in fiscal year 2015. Significant events affecting Governmental activities are as follows:

- Governmental Activity decreased due to Public Works activity increase for the TIGR grant, CTEP, road maintenance.
- Total Governmental expenses decreased overall by 8.54% or \$4,564,771

The previous statement shows the amount paid by property taxpayers was \$33,424,693 or 68.37% of primary government activity expenses. The following table shows the changes in the percentage taxes are to governmental activity expenses:

Governmental Activities

<u>Year</u>	<u>Taxes</u>	<u>Expenses</u>	<u>Percentage</u>
2015	33,424,693	48,884,521	68.37%
2014	32,028,092	53,449,292	59.92%
2013	31,087,735	47,014,314	66.12%
2012	30,201,336	43,735,302	69.05%
2011	35,170,629	49,512,015	71.03%
2010	29,436,161	45,205,151	65.12%
2009	24,914,109	37,734,693	67.98%
2008	24,650,399	34,976,300	70.74%
2007	22,671,650	32,326,125	70.13%
2006	21,077,536	32,703,445	64.45%
2005	18,765,212	28,114,640	66.74%
2004	16,482,487	26,270,917	62.77%

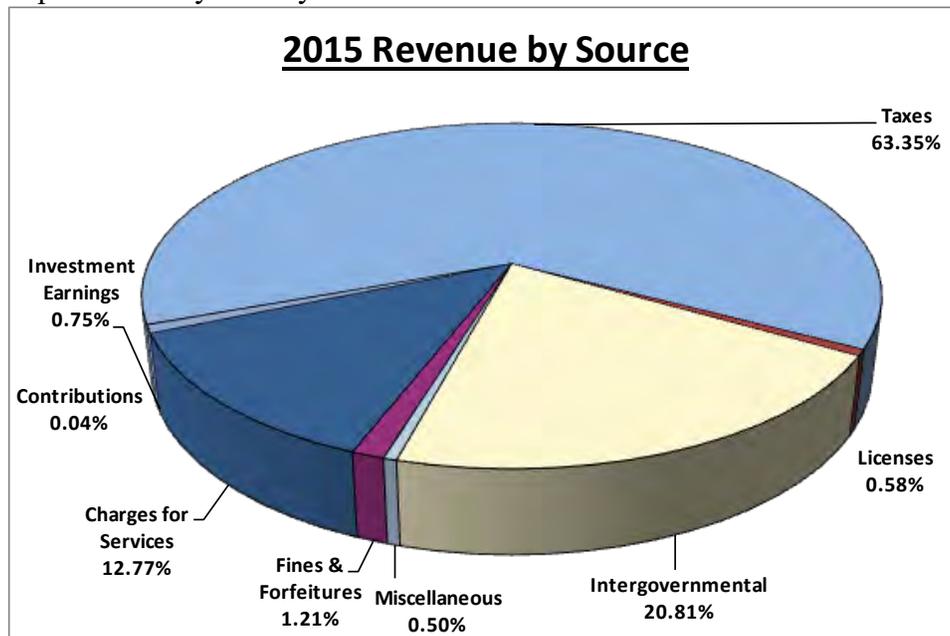

Some costs are paid directly by users of a service (Charges for Services). These revenues accounted for \$8,340,155 (17.06%) of fiscal year 2015 Governmental Activity expenses. Operating Grants & Contributions and Capital Grants and Contributions (Intergovernmental Revenues) generated \$8,511,263, accounting for 17.41% of expenses. Other Revenue sources generated the balance of money needed.

Overall, governmental program revenues, both primary government and business-type activity (revenue generated for services, fines, etc.), generated \$18,225,562 from charges for services, while operating grants and contributions and capital grants and contributions equaled \$8,652,283 accounting for \$26,877,845 or \$31,641,641 less than it cost to provide services (Total primary government expenses \$58,519,486 minus Program revenues \$26,877,845 equals \$31,641,641). The balance is required to be funded from other sources (taxes). Program revenues do not include taxes, investment earnings, entitlements or sale of fixed assets, but are restricted to revenue generated by the individual departments for services, fees, fines, grants, contributions or other direct revenue sources.

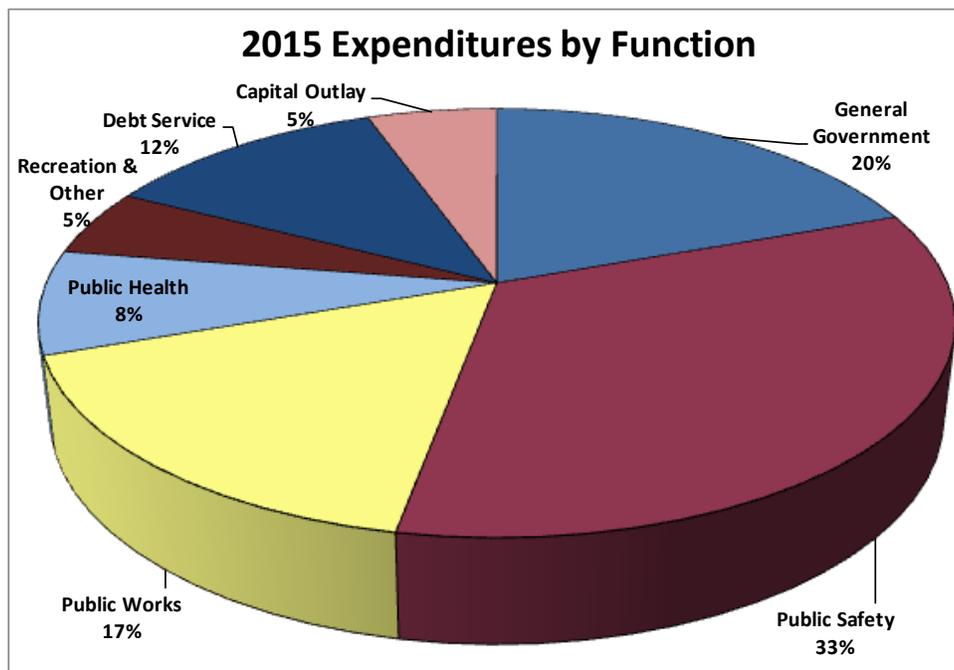

Graph of Revenues by Source – Activities

Gallatin County received \$54,786,645 in revenues to finance governmental operations. Total expenses for governmental activities were \$48,884,521; which resulted in a net position increase of \$4,925,808.

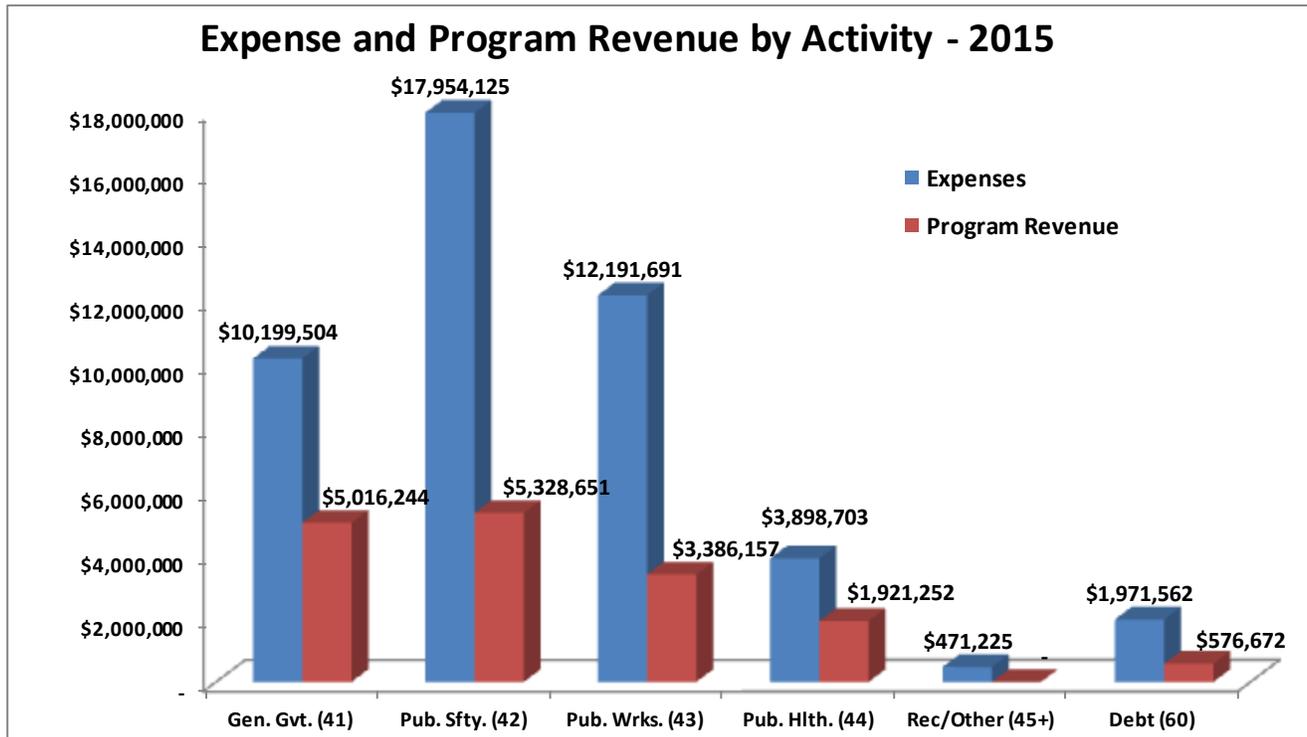

After all activities are considered, net position decreased from \$161,190,325 to \$141,050,471 for governmental activities and business type activities. The graphs that follow show revenues by source and expenditures by activity for all activities.

A listing of which departments are included in each function section of the following pie chart can be found on pages 14 and 15 of this document.

The next graph compares expenses to the revenues generated by each activity:

As this graph dramatically shows, the cost of providing services to residents and visitors of Gallatin County is not supported by the amount the state allows local governments to charge for providing services.

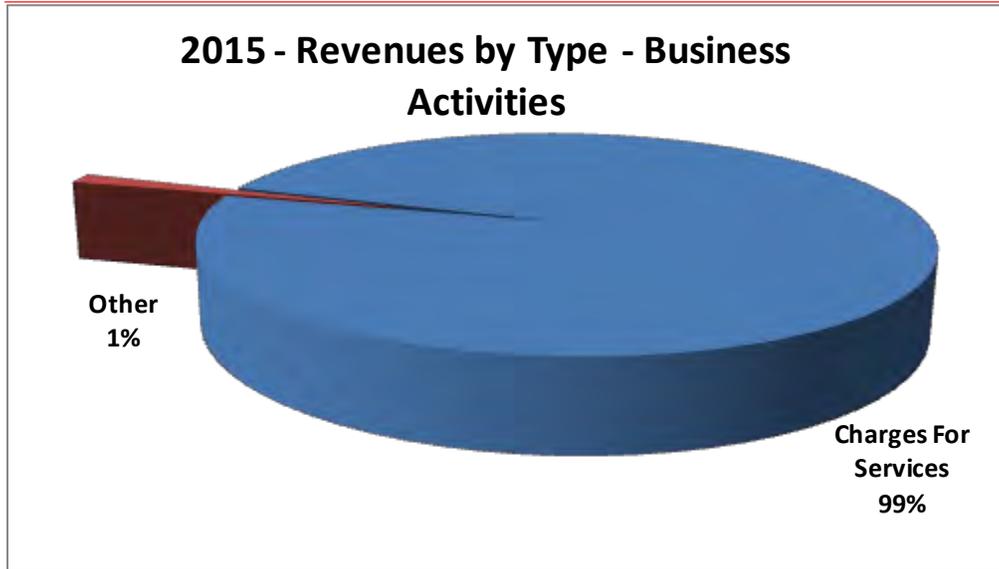

As a local government, Gallatin County uses tax revenues to support mandated services, as is the case with all county governments in Montana. To some extent, the County will need to increase tax levies from the inflationary mill, just to maintain service levels. In order to increase service levels, the following options are available:

- 1) receive authorization from the state legislature to increase local government's ability to charge the true cost of services, or authorize changes in current methods of funding local government (local option taxes), and/or
- 2) increase taxes - County Commission would need to utilize current taxing authority (inflationary mills / permissive medical levy) or request voter approval for an increase in taxes.

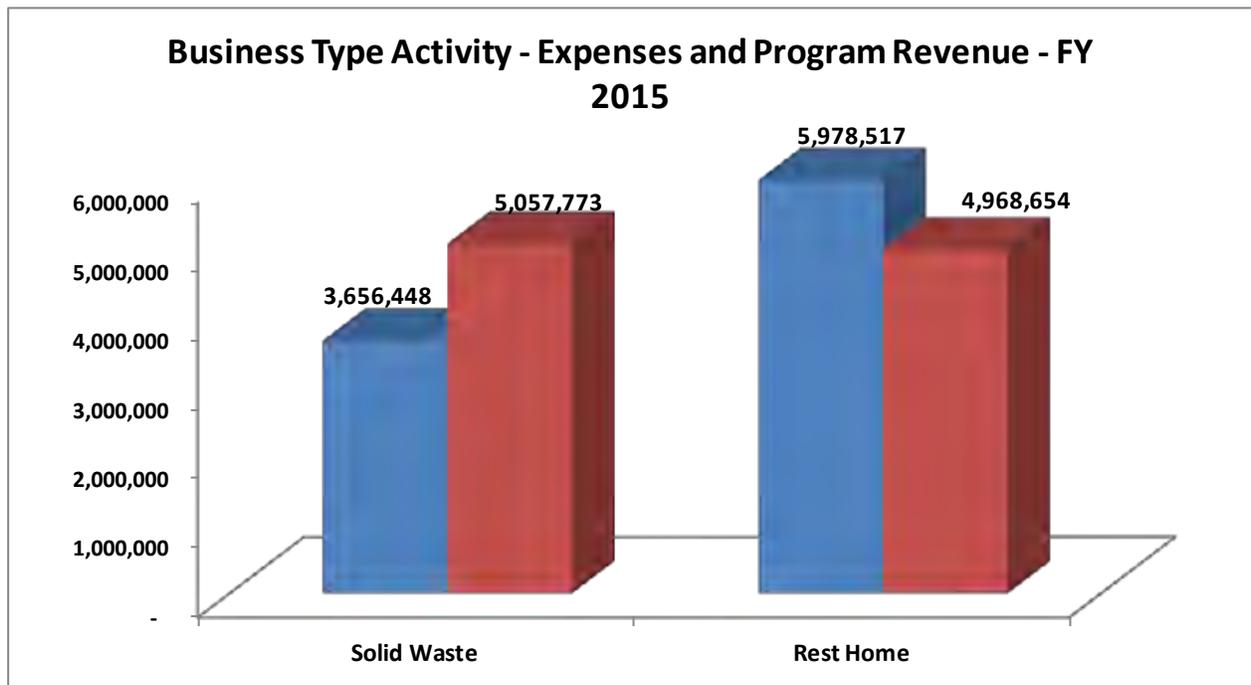

Business Type Activities

The cost of all proprietary (business type) activities for FY 2015 was \$9,634,965. The amount paid by users of the Rest Home, Landfill and Refuse District was \$9,885,407.

Total resources for fiscal year 2015 to finance proprietary funds (business type) were \$10,026,427 (Charges for Services \$9,885,407 and Grants / Contributions \$141,020).

Total proprietary expenses during the year were \$9,634,495.

Funds of the County

The following is an analysis of balances in the County's major funds. The last column is for comparison purposes only and shows prior year revenues and expenses.

General Major Governmental Functions

The information below compares revenues in FY 2015 to FY 2014:

Gallatin County, State of Montana
Statement of Activities
For the Year Ended June 30, 2015

	GENERAL	PUBLIC SAFETY FUND	RID MAINTENANCE	CAPITAL PROJECTS	RID BOND DEBT SERVICE	TOTAL NON MAJOR FUNDS	TOTAL GOVERNMENTAL FUNDS	FY 2014 TOTAL

Total Expenditures	\$ 11,686,041	\$ 15,292,470	\$ 455,184	\$ 1,370,191	\$ 890,643	\$ 23,555,529	\$ 53,250,058	\$ 56,748,096

The General Fund is always a 'Major Fund'. Public Safety and RID Maintenance Funds are 'Major Funds' because liabilities, revenues and expenditures are all greater than 10% of the Special Revenue Funds. RID Bonds are considered a 'Major Fund' because they have greater than 10% assets and also have greater than 10% of the Assets and Liabilities of debt service funds. The Capital Project Fund is considered a 'Major Fund' because it has greater than 10% assets and also has greater than 10% of the Assets and Liabilities of the Capital Project funds.

Proprietary Funds

The County has four proprietary funds comprised of Internal Service Funds and three major Enterprise Funds: Rest Home, Gallatin County Solid Waste District (Logan Landfill) and Hebgen/West Yellowstone Refuse District. The following statement gives an overview of all business type proprietary funds. Internal Service Funds are part of Governmental Activities.

Gallatin County, State of Montana								
Summarized Comparative Schedule of Proprietary Funds								
For the Year Ended June 30,2015					For the Year Ended June 30,2014

Debt Administration

Gallatin County maintained its bond rating from Standard and Poor at AA+, based on the 2014 Limited Tax General Obligation Bond, bonds, lease/purchase instruments, and similar obligations of Gallatin County are considered a liability of governmental activities. As a whole, Governmental Activities debt decreased in fiscal year 2015 by \$3,159,465 because of normal principal payments.

The cost per capita for governmental debt outstanding decreased from \$574.89 to \$524.60 in fiscal year 2015 (\$51,064,464 divided by estimated population of 97,340). Governmental activity debt summary for fiscal year 2015 is presented below.

	----- PRIOR YEARS -----				CURRENT
	FY 11	FY 12	FY 13	FY 14	FY 15
DEBT PAYABLE ON (June 30)					
BEGINNING BALANCE	59,648,747	62,773,975	57,914,983	56,679,376	54,223,929
ADD: InterCap Loan / Notes/Bonds	1,300,000	300,000	-0-	1,150,000	-0-
Special Assessment Bonds	4,715,000	-0-	-0-	-0-	765,000
G. O Bonds	2,301,000	-0-	7,840,000		-0-
Compensated Absences (INC)	159,428	109,168	23,378	87,478	-0-
Capital Lease Agreements	1,273,260	-0-	-0-	-0-	-0-
LESS: Loan/Lease Payments	1,954,084	2,774,953	835,133	895,825	985,227
Special Assessment Payments	568,000	602,000	698,000	420,000	499,000
Compensated Absence (DEC)	-0-	5,650	-0-	-0-	19,323
G.O. Payment/Refinancing	4,101,377	1,885,557	7,565,852	2,377,100	2,462,100
DEBT PAYABLE (June 30)	62,773,975	57,914,983	56,679,376	54,223,929	51,023,279
Cost Per Capita	\$690.98	\$635.94	\$607.88	\$574.89	\$524.18

Debt includes compensated absences (amount due to employees for accrued leave, including 1/4 sick leave, all vacation and compensatory time) of \$2,076,993 down \$19K from FY 14. The decrease of \$19,323 represents a change of 0.92%, primarily from retirements of employees and a change in Compensatory time accrual from maximum of 40 hours to a maximum of 20 hours. Debt does not include Governmental Activities Other Post Employment Benefits (OPEB) of \$1,296,869 and retirement shortfall of \$14,995,311.

The County, by statute, can have debt of 2.50% of Assessed Valuation. For fiscal year 2015 this equals \$375,763,746. County debt of \$43,690,464 (\$51,064,464 less Special Assessment Bonds (RID) \$7,374,000) means the County has used 11.63% of its borrowing capacity through fiscal year 2015, with unused borrowing capacity being \$332,073,282. Special assessment bonds (RID Bonds) are not included when calculating debt limit. Debt from business-type activities does not affect the County's debt limit.

The County did issue an additional \$3,200,000 in General Obligation Bonds for Open Space in October, 2015. The County's 'AA+' rating was reaffirmed.

Capital Assets

Capital assets (non-current assets) of the County are those assets used in the performance of the County's functions including infrastructure assets.

Capital Assets						
(net of depreciation)						
	<u>Governmental Activities</u>		<u>Business - Type Activities</u>		<u>Total</u>	
	<u>2015</u>	<u>2014</u>	<u>2015</u>	<u>2014</u>	<u>2015</u>	<u>2014</u>

Construction in progress	1,686,933	2,049,197	241,454	241,454	1,928,387	2,290,651
Total assets	<u>142,992,015</u>	<u>146,484,783</u>	<u>9,827,181</u>	<u>9,827,182</u>	<u>152,819,196</u>	<u>156,311,965</u>

At the end of 2015 the County had invested in a broad range of capital assets, including law enforcement equipment, roads and road equipment, bridges, County facilities, and other infrastructure. Major additions during 2015 included:

	<u>Governmental</u>	<u>Business-Type</u>
Land	\$ -0-	\$ -0-
Building Improvements	17,076	245,522
Improvements Not Buildings	820,924	13,272
Intangibles - Software	135,231	-0-
Intangibles - Easements	168,366	-0-
Infrastructure	1,650,947	-0-
Machinery & Equipment	1,417,996	399,916
Construction in Progress	286,310	104,781

As the previous table shows, Gallatin County is committed to the upkeep, maintenance and replacement/expansion of the County's assets.

Budgets and Budgetary Accounting

County General and Public Safety Fund Budget Highlights and Variances

The fiscal year 2015 adopted and final budgets for the General and Public Safety Funds totaled \$27,226,022. These budgets increased by \$557,388 during the year. Individual department budgets were amended, throughout the year, without affecting the total budget.

Original Budget	+	Continuing Appropriations	+	Encumbrances	=	Beg. Balance
<u>\$ 27,226,022</u>	+	\$ <u>-0-</u>	+	\$ <u>-0-</u>	=	<u>\$ 27,226,022</u>

Beg. Balance	+/-	Supplemental Changes	=	Final Budget
<u>\$27,226,022</u>	+	<u>\$557,388</u>	=	<u>\$ 27,783,410</u>

The beginning to final budget shows an increase of 2.04% from budget amendments. Changes were caused by receipt of detention center inmate revenues from the state and other counties, land use revenues and changes associated with normal budget amendments for grants and increases in fee revenue.

Budget Changes – FY 2015 Compared to FY 2016

The following information is provided to show the changes that have been made in the coming year's budget. The information is provided based on recommendations from the Governmental Accounting Standards Board.

No major changes in operational budgets occurred between fiscal year 2015 and fiscal year 2016 by the County Commission. Changes in staffing were:

Staffing Changes (FTE)	
Department / Division	Net Increase (Decrease)
Attorney	0.83
Commission	0.50
Court Services	0.50
Detention Center	0.33
Dispatch / Law Enforcement Records	(0.25)

Subtotal CIP - Long Term			-	50,385,887	-	-	-	-	50,385,887
TOTAL CAPITAL PROJECTS			32,830,646	140,380,900	5,810,486	3,599,674	396,476	9,806,636	130,574,264

Capital Projects increased to \$140.4 million for FY 2016, with \$32.8M funded in FY 2016. The previous table shows funding for all capital projects, capital outlay, capital equipment and those projects included in the long-term capital plan but not funded in the FY 2016 Budget. The Commission authorized \$1,558,700 for Core Rolling Stock, \$1,200,000 for the Bridge Replacement Program, \$615,186 for repair, remodeling and updating of County Facilities, \$381,600 for the Law Enforcement Building, \$1,000,000 for a new Storage Facility, \$305,000 for the Extension Office Facility, CTEP Projects of \$396,476 and \$2,643,836 reserved for Detention Center remodel and expansion.

Summary

The fiscal year 2016 budget sees increases in taxes for operations and decreases in taxes for debt service. A comparison of budgeted taxes and mill levies for fiscal year 2010 through fiscal year 2016 shows:

Comparison of Budgeted Taxes							
Taxes Budgeted	FY 2010	FY 2012	FY 2013	FY 2014	FY 2015	FY 2016	% Change
County Operating Taxes	\$ 16,343,857	\$ 17,122,165	\$ 17,362,033	\$ 18,282,663	\$ 18,808,855	\$ 19,702,783	4.75%
Road and Library Taxes	3,153,566	3,373,752	3,563,417	3,686,493	3,762,770	3,944,991	4.84%
Debt Service/Insurance Tax	3,941,648	5,173,537	4,719,997	4,696,891	5,077,427	5,206,857	2.55%
MILL LEVIES							
County Operating Taxes	73.20	72.62	72.50	74.15	74.35	82.84	11.42%
Road and Library Taxes	25.23	25.48	26.34	26.44	26.29	30.04	14.26%
Debt Service/Insurance Tax	17.80	22.08	19.79	19.13	20.15	21.96	8.98%
TAXABLE VALUATIONS							
County Operating Valuation:	223,244	235,791	239,468	246,571	252,964	237,836	-5.98%
Road and Library Valuations	125,025	132,432	135,307	139,435	143,113	131,332	-8.23%
Open Land Valuations	217,532	231,290	235,498	242,437	249,047	234,986	-5.65%

This table shows decrease in the taxable valuation of property for FY 2016 caused by state wide reappraisal. However, under state law the Commission was allowed to increase the number of mills to offset the reduction in taxable values. In addition, taxes generated by newly taxable property (new construction) accounted for a 4.03% increase in taxes, with the balance coming from a small increase associated with inflationary mills. The County Commission did not maximize the number of mills levied for the Permissive Medical levy; however they did increase the mills and taxes levied for this Levy. In addition, The Commission did not maximize taxes for County operating and rural taxes as authorized by state law. This results in the County not assessing taxes of \$2,339,370. The Commission may impose these taxes in future years if they deem it is in the best interest of the County.

Contacting the County Financial Management

This financial report is designed to provide citizens, taxpayers, customers, investors, and creditors with a general overview of Gallatin County's finances and the County's accountability for the money it receives. If you have any questions about this report or want additional information, contact the Finance Department - Accounting Office at 311 West Main Street, Bozeman, MT 59715, phone 406-582-3048 or e-mail jill.therrien@gallatin.mt.gov.

Gallatin County, Montana
Reconciliation of the Statement of Revenues, Expenditures,
and Changes in Fund Balances of Governmental Funds
to the Statement of Activities
For the Fiscal Year ended June 30, 2015

Amounts reported for *governmental activities* in the statement of activities are different because:

Net change in fund balances - total governmental funds \$ 5,345,645

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

Capital assets purchased or constructed	\$ 3,580,440	
Depreciation expense	<u>(7,202,273)</u>	(3,621,833)

In the statement of activities, the loss or gain on the sale or disposal of capital assets is recognized. The governmental funds recognize only the proceeds from the sale of these assets.

Loss from the sale of capital assets		(1,897)
--------------------------------------	--	---------

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

(1,388,651)

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

Increase in compensated absences	21,859	
Increase in GASB 45 OPEB Obligation	(117,388)	
Amortization of bond premium	<u>13,799</u>	(81,730)

The change in the proportionate share of collective net pension liability related to the proportionate share of collective pension expense is reported on the Statement of Activities but is not reported on the Statement of Revenues, Expenditures, and Changes in Fund Balance.

411,625

On behalf State contributions to pensions not reported as revenues on the Statement of Revenues, Expenditures, and Changes in Fund Balance.

329,845

The issuance of long-term debt provides current financial resources to governmental funds, which the repayment of the principal of long-term debt consumes current financial resources of governmental funds. Neither transaction, however, has any effect on net position.

Issuance of debt	(765,000)	
Principal payments on long-term debt	<u>3,946,447</u>	3,181,447

Internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenue (expense) of the internal service funds is reported with the governmental activities.

751,357

Change in net position - statement of activities

\$ 4,925,808

NOTES TO THE FINANCIAL STATEMENTS

GALLATIN COUNTY, STATE OF MONTANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Gallatin County, State of Montana (the County) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the standard-setting body for establishing governmental accounting and financial reporting principles.

The County has adopted the provision of the following GASB pronouncement for fiscal year 2015:

Statement No. 68 – Accounting and Financial Reporting for Pensions – An Amendment of GASB Statement No. 27. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities.

Statement No. 71 –Pension Transition for Contributions Made Subsequent to the Measurement Date-An Amendment to GASB Statement No. 68. The objective of this Statement is to address an issue regarding application of the transition provisions of Statement No. 68, *Accounting and Financial Reporting for Pensions*. The issue relates to amounts associated with contributions, if any, made by a state or local government employer or nonemployer contributing entity to a defined benefit pension plan after the measurement date of the government’s beginning net pension liability.

A. Reporting Entity

The County is a political subdivision of the State of Montana governed by a three member Board of Commissioners duly elected by the registered voters of the County. The County utilizes the Commission form of government. The accompanying financial statements present the primary government.

Certain activities such as Fair, Library, Weed, and Planning have separate boards but are included in the basic financial statements as special revenue funds because they are not legally separate or fiscally independent from the County and the County is financially accountable. Other activities such as the Soil Conservation District, West Yellowstone TV District, Sewer and Water Districts, Fire Districts, Fire Service Areas, Cemetery Districts, Dyke Districts, Cities, and School Districts are reflected only in the fiduciary statement of net position as agency funds, since the County is responsible, by law, for the collection of taxes and/or maintenance cash funds for those entities. These entities are considered primary governments and are not a part of the County.

B. Fund Accounting

The County uses funds to report its financial position and the results of its operations. A fund is a separate accounting entity with a self-balancing set of accounts. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

Funds are classified into three categories: governmental, proprietary and fiduciary. Each category, in turn, is divided into separate "fund types."

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the acquisition or construction of general fixed assets (capital projects funds), and the servicing of general long-term debt (debt service funds). The general fund is used to account for all financial activities of the general government not recorded in another fund.

Proprietary funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Goods or services from such activities can be provided either to outside parties (enterprise funds) or to other departments or agencies primarily within the government (internal service funds).

GALLATIN COUNTY, STATE OF MONTANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015

Fiduciary funds include all trust and agency funds which account for assets held by the County as a trustee or as an agent for individuals, other governmental units and/or other funds. The investment trust fund accounts for the external portion of the County's investment pool, which is invested for County school districts, special districts, and the protest tax fund. These districts have all agreed to voluntarily participate in the investment pool. Agency funds generally are used to account for funds being held on an interim basis on behalf of others as their agent. Such funds are custodial in nature since all assets are due to individuals or entities at some future time.

C. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide statements. Major individual governmental funds and major individual enterprise funds are reported in separate columns in the fund financial statements.

Nonmajor funds are aggregated and presented in a single column. The internal service funds are aggregated in a single column on the face of the proprietary fund statement.

D. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recorded when the related fund liability is incurred as under accrual accounting. Principal and interest on long-term debt, as well as expenditures related to compensated absences, are recorded as fund liabilities when payment is due.

All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the statement of net position. Proprietary fund-type operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in total net position. The accrual basis of accounting is utilized by proprietary funds and the investment trust fund. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Agency funds are custodial in nature and do not involve measurement of results of operations.

GALLATIN COUNTY, STATE OF MONTANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015

The County reports deferred inflows of resources on its governmental funds' balance sheets. Deferred inflows of resources arise when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Deferred inflows of resources also arise when resources are received by the government before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the government has a legal claim to the resources, the liability for deferred inflows of resources is removed from the combined balance sheet and revenue is recognized. The County reports uncollected property tax revenues as deferred inflows of resources for governmental funds.

Those revenues susceptible to accrual are interest revenue, grant revenues, and charges for services. Changes in the fair value of investments are recognized in revenue at the end of each year. Fines and permits are not susceptible to accrual because generally they are not measurable and available until received in cash.

The government reports the following major governmental funds:

General Fund – This is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Public Safety Special Revenue Fund – This is the fund that accounts for all financial resources of the County's Sheriff Department, Coroner, Disaster & Emergency Services / Hazardous Materials and County Rural Fire.

RID Maintenance Special Revenue Fund- This fund accounts for financial resources for the maintenance costs associated with the rural improvement districts.

Capital Projects Fund-This fund accounts for all of the County's capital improvement activities.

RID Bonds Fund – This is the summary of funds that account for all financial resources for the debt service of all RID Bonds for the County.

The Government reports the following major proprietary funds:

Rest Home Fund – This fund is used to account for the operating and non-operating revenues and expenses of the Rest Home operated by the County. The fund is maintained on the full accrual basis of accounting.

County Landfill Fund – This fund is used to account for the operating and non-operating revenues and expenses of the landfill operated by the County. The fund is maintained on the full accrual basis of accounting.

West Yellowstone Refuse District Fund – This fund is used to account for the operating and non-operating revenues and expenses of the refuse facility operated by the County. The fund is maintained on the full accrual basis of accounting.

Additionally, the government reports the following fund types:

Internal Service Funds – These funds account for services provided by the government to its various departments or agencies or to other governments, on a cost recovery basis.

Fiduciary Funds – These funds account for assets held by a governmental unit in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds. The County's agency funds include cash and investments, property tax receivables, and surety bonds and performance deposits for county school districts and other county special districts.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are other charges between the governments' enterprise functions and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds and the government's internal service funds are charges to customers for services provided. Operating expenses for enterprise funds and internal service funds include the cost of providing such services and the depreciation of capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

GALLATIN COUNTY, STATE OF MONTANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015

E. Assets, Liabilities, and Net Position or Fund Balance

1. Cash and Investments

Except for certain specific bank deposits and investments held separately on behalf of certain fiduciary funds, cash resources, to the extent available, of the individual funds are combined to form an investment pool. The pool is managed by the County Treasurer. The pool is not registered with the Securities and Exchange Commission as an investment company and is not subject to regulatory oversight. Investments of the pool, which are authorized by state law, consist primarily of repurchase agreements, the State of Montana's Short Term Investment Pool (STIP), U.S. Treasury Bills, and securities of the U. S. Government, its agencies, or government sponsored entities and are carried at quoted market prices. The fair value of investments is determined annually, and is based on quoted market prices. The method used to determine the values of participants' equity withdrawn is based on the book value of the participants' percentage participation at the date of withdrawal. Bank deposits include demand deposits and overnight repurchase agreements in County banks. Interest income earned as a result of pooling and changes in the fair value of investments are distributed to the appropriate funds as designated by state law utilizing a formula based on the applicable cash balance participation of each fund. The general fund receives interest revenue from those funds not specifically designated by state law to receive interest. Government sponsored entities include: Fannie Mae, Freddie Mac, Federal National Mortgage Association, Federal Home Loan Bank, Federal Home Loan Mortgage Company, and Federal Farm Credit Bank.

The County has not provided nor obtained any legally binding guarantees during the fiscal year ended June 30, 2015 to support the value of shares in the pool.

The County issues warrants in payment of its obligations. Cash balances are reported net of outstanding warrants.

For purposes of the statement of cash flows, the County considers all highly liquid debt instruments with an original maturity of three months or less, including restricted cash and demand investments, as cash equivalents.

2. Receivables and Payables

Activity between funds that are representative of lending or borrowing arrangements outstanding at fiscal year-end are referred to as due from/to other funds.

Accounts receivable represents amounts due from fines and forfeitures, charges for services, and intergovernmental revenues. These amounts are shown net of an allowance for uncollectible accounts. The allowance for bad debts for the Rest Home is 2% of aged accounts receivable. For the County Rest Home the allowance for doubtful accounts at June 30, 2015 was \$7,204. The process for determining the allowance for bad debts for Justice Court is 30% of balances that are less than 5 years old and receivables that are 5 years or older are written off. For Justice Court the allowance for doubtful accounts at June 30, 2015 was \$56,056. All other receivables are considered fully collectible.

Property tax levies are set on the later of the first Thursday in September or within thirty calendar days after receiving certified taxable valuation (MCA 7-6-4036) in connection with the budget process. Real property (and certain attached personal property) taxes are billed within ten days after the third Monday in October and are due in equal installments on November 30 and the following May 31. After those dates, they become delinquent. These taxes attach as an enforceable lien immediately if not paid when due. A lien is placed upon the property and after three years, the County may exercise the lien and take title to the property. Personal property taxes (other than those billed with real estate) are generally billed no later than the second Monday in July (normally in May or June), based on the prior November's levies. Personal property taxes, other than mobile homes, are due thirty days after billing. Mobile home taxes are billed in two halves. The first is due thirty days after billing; the second due November 30. The tax billings are considered past due after the respective due dates and are subject to penalty and interest charges. Personal property taxes attach as an enforceable lien immediately if not paid when due. Only amounts collected in the current year meet the criteria for revenue recognition. The remainder amounts are deferred until collected.

Special assessments are set based on a square foot, per lot or per utilization basis for each district created by the County Commission (RID Bond, RID Maintenance, Local Water Quality, Planning / Zoning, and Lighting Districts) on the later of the first Thursday in September or within thirty calendar days after receiving certified taxable valuation, in connection with the budget process. They are either billed in one installment due November 30 or two equal installments due November 30 and the following May 31. Only amounts due in the current year meet the criteria for revenue recognition. The remainder amounts are deferred until due.

An allowance for uncollectible accounts was not maintained for real and personal property taxes and special assessments receivable. The direct write off method is used for these accounts. This is an immaterial departure from generally accepted accounting principles.

GALLATIN COUNTY, STATE OF MONTANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015

The tax levies for the fiscal year ended June 30, 2015 were based upon the County wide taxable valuation of \$252,812,574.

All payables are reported in the government-wide financial statements with the proprietary funds payables also being presented on the proprietary fund financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, compensated absences and other voluntary termination benefits are reported as a liability in the fund financial statements only to the extent that there are unpaid reimbursable balances for terminated employees at year end.

3. Inventories

All inventories are valued at cost using the First-In First-Out (FIFO) method. Inventories are recorded as expenditures when purchased. Any material inventory remaining at year-end is included in the balance sheets of each fund at cost. The reported inventory is offset equally by a fund balance reserve which indicates that it does not constitute available spendable resources even though it is included in net current assets.

4. Restricted Assets

Certain assets of the proprietary funds are restricted for specific use as required by the bond indenture agreement covenants established with the issuance and sale of the revenue bonds. This represents a liability to the proprietary funds. These restricted assets represent cash and investments restricted for use to repay current debt, future debt, landfill closure/post closure liabilities and replacement and depreciation for the purpose of replacing the system in the future. When both restricted and unrestricted resources are available for use, it is the County’s policy to use restricted resources first, then unrestricted resources as they are needed.

5. Capital Assets

Capital assets which include: property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, curbs, etc), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the County as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year, except for the Rest Home where assets with a value of \$500 or more are capitalized. Such assets are recorded at historical cost or capital estimated historical cost if purchased or constructed. Donated assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Capital assets of the primary government are depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	15-40
Building Improvements	10-20
Infrastructure:	
Road	20-60
Bridge	50-75
Vehicles	7
Equipment other than Vehicles	5-20
Office Equipment	5-20
Computer Equipment	5
Intangibles:	
Software	7

6. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position and governmental funds balance sheets will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position (or fund balance) that applies to a future period(s) so will not be recognized as an outflow of resources (expenses/expenditures) until then. The District has some pension related deferred outflows of resources in the current fiscal year.

GALLATIN COUNTY, STATE OF MONTANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015

In addition to liabilities, the statement of net position and governmental funds balance sheets will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Within the District's governmental fund balance sheet, there was one item that qualified as a deferred inflow of resources. This item was entirely comprised of unavailable revenue for property taxes and fines and forfeitures as of June 30, 2015. These amounts are (and were) reported as revenue in the government-wide financial statements in the period in which they were earned/levied and thus no deferred inflows of resources were reported. The government-wide and proprietary Statements of Net Position did report some deferred inflows of resources for pension related activities.

7. Compensated Absences

As required by State law, the County allows for employees to accumulate earned but unused vacation and sick leave benefits. Unused vacation leave benefits are 100 percent payable upon separation and 25 percent of unused sick leave benefits are payable upon separation. Employees are allowed to accumulate and carry over a maximum of two times their annual accumulation of vacation. Excess accruals can be carried for up to 90 days into the new calendar year. There is no restriction on the amount of sick leave that may be accumulated. The liability associated with governmental fund-type employees is reported in the general long-term debt account group, while the liability associated with proprietary fund-type employees is recorded in each respective fund. Expenditures for unpaid vacation and sick leave benefits are recorded when paid in the governmental funds on the modified accrual basis of accounting and expenses for vacation and sick leave benefits are recorded when accrued in the proprietary funds on the full accrual basis of accounting. The County also allows exempt employees to carry up to 40 hours in compensatory time. Only non-exempt employees are paid compensatory time at 100% upon termination.

8. Net pension liability

The County must now report its proportionate share of the collective net pension liability, pension expense, deferred inflows, and deferred outflows of resources associated with pension plans that its employees are eligible to participate in.

9. Other postemployment benefits

Per state law requirements, the County allows retirees that have finished employment with the County to remain on the County health insurance plan. Another postemployment benefit arises from the difference in the County health insurance cost the retirees are incurring and what they would otherwise be paying on the open market for a similar plan. This benefit is reflected in the financials as a long term liability following the guidance of GASB Statement No. 45.

10. Long-term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bond issue using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuance are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

11. Fund Balance

The County implemented Governmental Accounting Standard Board (GASB) Statement No. 54 as of June 30, 2011. As a result, the classifications for fund balance now used for governmental funds are reported in two general classifications, nonspendable and spendable.

Nonspendable represents the portion of fund balance that is not in spendable form. Nonspendable fund balance includes items such as inventory or amounts legally or contractually required to remain intact. Spendable fund balance is further categorized as restricted, committed, assigned and unassigned.

Restricted fund balance classification includes amounts that can only be spent or used for specific purposes and the constraints placed on the use of the resources are either externally imposed by creditors, grantors, contributors, or laws and/or regulations of other governments, imposed by law through constitutional provisions, or imposed by enabling legislation that is legally enforceable by an external party.

GALLATIN COUNTY, STATE OF MONTANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015

Committed fund balance classification includes amounts that can only be used for specific purposes when constraints placed on the resources are either imposed by formal action of the governments highest level of decision making authority or amounts that are contractual obligations to the extent the existing resources in the fund have been specifically committed for uses in satisfying those contractual requirements. Committed fund balances will be authorized by the County Commission in a public meeting by resolution and according to policy.

Assigned fund balance classification includes amounts that are constrained by the government's intent to be used for a specific purpose and the intent to spend down fund balance to fund the next year's projected deficit spending if this exists or amounts that are neither nonspendable, restricted or committed. Assigned fund balance may be assigned by the County Commission informally after a fund balance review has been completed by the accounting department and reviewed and approved by the F.A.Ac.T. (Finance, Auditor, Accounting, Treasurer) Committee.

Unassigned fund balance represents spendable amounts that have not been Restricted, Committed or Assigned to a specific purpose within the general fund.

Hierarchy of spending

The County has adopted a policy determining whether restricted, committed, assigned and unassigned amounts are considered to have been spent. In the General Fund and the Special Revenue Funds, the policy for assumed order of spending is restricted first, committed second, and assigned last unless there are legal documents/contracts that prohibit this approach.

Minimum General Fund-Fund Balance

The County does not maintain a stabilization fund. The County has a formal minimum fund balance policy that requires maintaining a minimum 10% of expenses in the General Fund as Unrestricted Fund Balance. No specific circumstances in which this balance in the General Fund can be spent exist; it is determined in the budget process which is formally adopted by the County Commission and as circumstances arise and deemed necessary by the County Commission.

12. Interfund Transactions

Interfund transactions consisting of identified services performed for other funds or costs billed to other funds are treated as expenditures in the fund receiving the services and as revenue in the fund performing the services. Transactions which constitute reimbursements of a fund for expenditures or expenses initially made from it which are properly applicable to another fund are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the fund that is reimbursed. Advances between funds are accounted for in the appropriate interfund receivable and payable accounts.

13. Net Position

Net position represents assets and deferred outflows of resources less liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position does not include either capitalized assets or the related debt for Rural Special Improvement Districts (RSIDs). Infrastructure improvements built and maintained through RSIDs are the financial responsibility of the benefited property owners and are not the responsibility of the County other than in a fiduciary capacity. Net investment in capital assets excludes unspent debt proceeds. Net position is reported as restricted when there are limitations imposed on their use through enabling legislation or through external restrictions imposed by creditors, grantors, or laws or regulations by other governments.

2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

The County adopts an annual budget for all of its funds in accordance with Title 7, Chapter 6, Part 40 of the Montana Code Annotated. Statute requires the adoption of a preliminary budget, public hearings on the preliminary budget and the final adoption of the budget by the later of the first Thursday in September or within thirty calendar days after receiving certified taxable valuation from the Department of Revenue (County assessor).The County must also submit a copy of the final budget to the Department of Administration by the later of October 1 or 60 days after the receipt of taxable values from the Department of Revenue.

GALLATIN COUNTY, STATE OF MONTANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015

State statute limits the making of expenditures or incurring of obligations to the amount of the final budget as adopted or as amended. Budget transfers and amendments are authorized by law, and in some instances, may require further public hearings. Any budget amendments providing for additional appropriations must identify the fund reserves, unanticipated revenue, or previously unbudgeted revenue that will fund the appropriations.

Appropriations are created by fund, function, and activity and may further be detailed by department. Per MCA 7-6-4004 expenditures are limited to appropriations; (1) Local government officials may not make a disbursement or expenditure or incur an obligation in excess of the total appropriations for a fund.

Purchase orders outstanding at year end are reported as expenditures or liabilities because the commitments will not be expropriated or honored during the subsequent fiscal year.

B. Excess of Expenditures over Appropriations

There were no funds with excess of expenditures over appropriations for the fiscal year ended June 30, 2015.

C. Deficit Fund Balances

At June 30, 2015, deficit fund balances were reported in funds #2836, MTUPP Grant Fund, for \$710 and #2153, Predatory Animal Control, for \$3,538.

3. DETAILED NOTES ON ALL FUNDS

A. Cash and Investments

The County maintains a cash and investment pool for all funds under the control of the County Treasurer. The non-pooled investments represent those investments held for other individuals or districts to be utilized for a specific purpose or capital project. The County's investments are categorized below to give an indication of the level of risk assumed by the County at June 30, 2015. All investments meet collateral requirements specified by State Law. Income from pooled investments is allocated to the individual funds or external participants based on the fund or participant's month end cash balance in relation to total pool investments.

Montana statutes require that the County obtain securities for the uninsured portion of the deposits as follows 1) securities equal to 50% of such deposits if the institution in which the deposits are made has a net worth to total assets ratio of 6% or more or 2) securities equal to 100% of the uninsured deposits if the institution in which the deposits are made has a net worth to total assets ratio of less than 6%. State statutes do not specify in whose custody or name the collateral is to be held. The amount of collateral held for County deposits at June 30, 2015 equaled or exceeded the amount required by State statutes.

Investments are categorized into these three categories of custodial credit risk:

- (1) Insured or registered, or securities held by the County or its agent in the County's name.
- (2) Uninsured and unregistered, with securities held by the counterparty's trust department or agent in the County's name.
- (3) Uninsured and unregistered, with securities held by the counterparty, or by its trust department or agent, but not in the County's name.

GALLATIN COUNTY, STATE OF MONTANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015

At June 30, 2015, the County's pooled and non-pooled cash and investment balances were as follows:

Pooled Cash and Investments:	Category			Reported Amount/
	1	2	3	Fair Value
U.S. Government agencies	\$ 76,351,108	\$ -	\$ -	\$ 76,351,108
Cash in overnight repurchase agreements	-	-	23,014,971	23,014,971
Cash on hand and demand deposits	<u>425,478</u>	<u>-</u>	<u>-</u>	<u>425,478</u>
Subtotal	<u>\$ 76,776,586</u>	<u>\$ -</u>	<u>\$ 23,014,971</u>	99,791,557
<u>Investments Not Subject to Categories:</u>				
State Treasurer's Investment Pool (STIP)				<u>23,214,947</u>
Total Pooled Cash and Investments				<u>\$ 123,006,504</u>
Nonpooled Cash and Investments:	Category			Reported Amount/
	1	2	3	Fair Value
Treasury bills and money market accounts	\$ 1,000,978	\$ -	\$ -	\$ 1,000,978
Certificates of deposit	<u>1,588,364</u>	<u>-</u>	<u>-</u>	<u>1,588,364</u>
Subtotal	<u>\$ 2,589,342</u>	<u>\$ -</u>	<u>\$ -</u>	2,589,342
<u>Investments Not Subject to Categories:</u>				
State Treasurer's Investment Pool (STIP)				6,785,053
Total Nonpooled Cash and Investments				<u>\$ 9,374,395</u>
Total cash and investments				<u>\$ 132,380,899</u>

Along with limitations placed on investments by state law, the County minimizes custodial risk by restrictions set forth by County policy. Custodial risk is the risk that in an event of a financial institution failure, the County investments may not be returned or the County will not be able recover the collateral securities in the possession of the outside party. The County maintains a listing of financial institutions which are approved for investment purposes.

The amounts above are reported in the accompanying financial statements as follows:

Government wide	\$ 61,896,054
Investment Trust Funds	65,695,025
Agency Funds	<u>4,789,820</u>
Total cash and cash equivalents	<u>\$ 132,380,899</u>

Cash and cash equivalents on the government-wide statement of net position is comprised of the following:

Unrestricted	\$ 59,734,916
Restricted - See Note G	<u>2,161,138</u>
	<u>\$ 61,896,054</u>

Cash on hand and demand deposits – Cash on hand represents two types of cash items: petty cash and change funds on hand. Cash in demand deposits represents cash on deposit in local bank accounts.

GALLATIN COUNTY, STATE OF MONTANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015

Cash in overnight repurchase agreements – This represents cash invested on a daily basis by the County’s primary bank. Invested funds represent the nightly balance of collected funds in the County’s main depository bank account. The overnight repurchase agreement has the funds re-deposited into the County’s main bank account the next business day. The invested funds are collateralized by permissible U.S. government securities.

Cash in State Treasurer’s Investment Pool (STIP)

STIP is considered an external investment pool. STIP is also classified as a “2a-7 like” pool. A “2a-7-like” pool is an external investment pool that is not registered with the Securities and Exchange Commission as an investment fund, but has a policy that it will and does operate in a manner consistent with the SEC’s Rule 2a-7 of the Investment Company Act of 1940. The County’s investment position in STIP is determined by the pool’s share price, which is dollar denominated.

The STIP portfolio includes, but is not limited to, “variable rate” and “asset-backed” securities to provide diversification and a competitive rate of return. Because of the pooled funds concept, cash held in STIP cannot be categorized as to custodial risk. These securities are described below:

Asset-backed Securities are debt securities collateralized by a pool of mortgages and non-mortgage assets, such as trade and loan receivables, equipment leases, and credit cards, etc. pledged by the issuer. Asset-backed securities have one or more forms of credit enhancement to raise the quality of the security. Examples of credit enhancement include, but are not limited to, letter of credit, reserve fund, or senior/subordinate arrangements.

Variable Rate (Floating-Rate) Securities provide many advantages of short-term bonds because they are designed to minimize the investor's interest rate risk. As with variable rate loans issued by banks, the interest rate paid by the issuer of these securities is reset periodically depending on market conditions. The value of these securities will usually remain at or near par because their interest rates are reset to maintain a current market yield.

Credit risk is defined as the risk that an issuer or other counterparty to an investment will not fulfill its obligation. The County securities have credit risk as measured by major credit rating services. This risk is that the issuer of a County security may default in making timely principal and interest payments. Obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government are not considered to have credit risk and do not require disclosure of credit risk quality per GASB No. 40. The credit ratings presented in the following tables are provided by Standard and Poor’s Corporation (S&P) rating service. If no rating is available from S&P, then a Moody’s Investment Service, Inc. rating will be used. The County does not have policies regarding credit ratings of investments.

Primary Government Investments	Value	Yield	Maturity Date	S&P	Moody’s
Fannie Mae	\$24,844,590	.80%-1.125%	2017-2018	AA+	AAA
Freddie Mac	5,498,552	1.0%-2.0%	2017-2020	AA+	AAA
Federal National Mortgage Association	7,472,315	.90%-1.25%	2017-2020	AA+	AAA
Federal Home Loan Bank	26,907,294	.92%-2.15%	2017-2020	AA+	AAA
Federal Home Loan Mortgage Company	8,607,668	1.05%-2.0%	2018-2020	AA+	AAA
Federal Farm Credit Bank	2,993,160	0.90%	2017	AA+	AAA
Unrecognized loss on investments	27,529

GALLATIN COUNTY, STATE OF MONTANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015

Revenue Bonds – The County also issues bonds where the County pledges income derived from the acquired or constructed assets to pay debt service. Revenue bonds outstanding at year-end were as follows:

Purpose	Issue Date	Interest Rate	Term of years	Final maturity	Bonds issued	Outstanding June 30, 2015	Annual serial payment
Landfill Land	2010	1.25	10	2020	\$ 1,250,000	\$ 687,500	Varies
Total Revenue Bonds					<u>\$ 1,250,000</u>	<u>\$ 687,500</u>	

Revenue bond resolutions include various restrictive covenants. The more significant covenants 1) require that cash be restricted and reserved for operations, construction, debt service, and replacement and depreciation; 2) specify minimum required operating revenue; and 3) specific and timely reporting of financial information to bond holders and registrar. The County was in compliance with applicable covenants as of June 30, 2015.

Special Assessment Debt – Special assessment bonds are payable from the collection of special assessments levied against benefited property owners within defined special improvement districts. The bonds are issued with specific maturity dates, but must be called and repaid earlier, at par plus accrued interest, if the related special assessments are collected. Special Assessment Debt outstanding at year-end was as follows:

Purpose	Issue Date	Interest Rate	Term of years	Final maturity	Bonds issued	Outstanding June 30, 2015	Annual serial payment
#371	1999	3.0-7.2	20	2020	\$ 63,000	\$ 8,000	Varies

Total	<u>\$4,399,000</u>			<u>\$ 1,367,032</u>	

The interest rate variances are based on an annual adjustment by the Montana Board of Investments.

Compensated Absences Payable

Compensated absences payable as of June 30, 2015, which represents vacation and sick leave earned by employees and is payable upon separation, is as follows:

Enterprise Funds	\$ 326,419
General Governmental Activities	2,041,859
Internal Service Funds	<u>35,134</u>
	<u>\$2,403,412</u>

Capital Leases

The County has entered into several leases which meet the criteria of a capital lease as defined by GAAP. GAAP defines a lease generally as a lease which transfers benefits and risks of ownership to the lessee.

Equipment under capital leases in capital assets at June 30, 2015, includes the following:

Equipment	\$ 1,273,260
Less: Accumulated depreciation	<u>(1,037,117)</u>
Total	<u>\$ 236,143</u>

Amortization of equipment under capital assets is included with depreciation expense.

F. State-Wide Retirement Plans

General Information about the Pension Plans

All full-time County employees are covered under one of the following retirement plans: Montana Public Employees Retirement System (PERS), Sheriffs Retirement System (SRS), or Teachers Retirement System (TRS). The plans are established by State law and administered by the State of Montana. The plans are cost-sharing multi-employer defined benefit plans that provide retirement, disability and death benefits to plan members and beneficiaries, with the amount determined by the State.

1. Public Employee Retirement System (PERS):

Plan Description

The PERS-Defined Benefit Retirement Plan (DBRP), administered by the Montana Public Employee Retirement Administration (MPERA), is a multiple-employer, cost-sharing plan established July 1, 1945, and governed by Title 19, chapters 2 & 3, Montana Code Annotated (MCA). This plan covers the State, local governments, certain employees of the Montana University System, and school districts.

All new members are initially members of the PERS-DBRP and have a 12-month window during which they may choose to remain in the PERS-DBRP or join the PERS-DCRP by filing an irrevocable election. Members may not be members of both the defined contribution and defined benefit retirement plans. All new members from the universities also have a third option to join the university system's Montana University System Retirement Program (MUS-RP). For members that choose to join the PERS-DCRP or the MUS-RP, a percentage of the employer contributions will be used to pay down the liability of the PERS-DBRP.

The PERS-DBRP provides retirement, disability, and death benefits to plan members and their beneficiaries. Benefits are established by state law and can only be amended by the Legislature. Benefits are based on eligibility, years of service, and highest average compensation. Member rights are vested after five years of service.

Summary of Benefits

Member's highest average compensation (HAC)

Hired prior to July 1, 2011 – highest average compensation during any consecutive 36 months;

Hired on or after July 1, 2011 – highest average compensation during any consecutive 60 months;

Hired on or after July 1, 2013 – 110% annual cap on compensation considered as part of a member's highest average compensation.

Eligibility for benefit

Service retirement:

Hired prior to July 1, 2011:

- Age 60, 5 years of membership service;
- Age 65, regardless of membership service; or
- Any age, 30 years of membership service.

Hired on or after July 1, 2011:

- Age 65, 5 years of membership services;
- Age 70, regardless of membership service.

Early retirement, actuarially reduced:

Hired prior to July 1, 2011:

- Age 50, 5 years of membership service; or
- Any age, 25 years of membership service.

Hired on or after July 1, 2011:

- Age 55, 5 years of membership service.

Vesting

- Age 55, 5 years of membership service

GALLATIN COUNTY, STATE OF MONTANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015

Monthly benefit formula

Members hired prior to July 1, 2011:

- Less than 25 years of membership service: 1.785% of HAC per year of service credit;
- 25 years of membership service or more: 2% of HAC per year of service credit.

Members hired on or after July 1, 2011:

- Less than 10 years of membership service: 1.5% of HAC per year of service credit;
- 10 years or more, but less than 30 years of membership service: 1.785% of HAC per year of service credit;
- 30 years or more of membership service: 2% of HAC per year of service credit.

Guaranteed Annual Benefit Adjustment (GABA)*

- 3% for members hired prior to July 1, 2007
- 1.5% for members hired on or after July 1, 2007

After the member has completed 12 full months of retirement, the member's benefit increases by the applicable percentage (provided below) each January, inclusive of other adjustments to the member's benefit.

*At this time, as a result of permanent injunction issued in the AMRPE vs State litigation, the GABA rate in effect is being used in the calculation. Clarification of the GABA rate for members hired on or after July 1, 2013, is pending.

Total number of members (employees) covered by benefit terms as of June 30, 2015:

- Active plan members: 28,237
- Inactive members entitled to but not yet receiving benefits or a refund:
 - Vested: 2,925
 - Non-vested: 8,839
- Inactive members and beneficiaries currently receiving benefits:
 - Service Retirements: 20,080
 - Disability Retirements: 176
 - Survivor Benefits: 425

Overview of Contributions

1. Rates are specified by state law for periodic employer and employee contributions
The State legislature has the authority to establish and amend contribution rates to the plan.
2. Member contributions to the system:
 - a. Plan members are required to contribute 7.90% of member's compensation. Contributions are deducted from each member's salary and remitted by participating employers.
 - b. The 7.90% member contributions is temporary and will be decreased to 6.9% on January 1 following actuary valuation results that show the amortization period has dropped below 25 years and would remain below 25 years following the reduction of both the additional employer and additional member contribution rates.
3. Employer contributions to the system:
 - a. Local government entities are required to contribution 8.17% of members' compensation.
 - b. Following the 2013 Legislative Session, PERS-employer contributions were temporarily increased. Effective July 1, 2013, employer contributions increased 1.0%. Beginning July 1, 2014, employer contributions will increase an additional 0.1% a year over 10 years, through 2024. The employer additional contributions including the 0.27% added in 2007 and 2009, terminates on January 1 following actuary valuation results that show the amortization period of the PERS-DBRP has dropped below 25 years and would remain below 25 years following the reductions of both the additional employer and member contributions rates.
 - c. Effective July 1, 2013, the additional employer contributions for DCRP and MUS-RP is allocated to the defined benefit plan's Plan Choice Rate unfunded liability.
 - d. Effective July 1, 2013, employers are required to make contributions on working retirees' compensation. Member contributions for working retirees are not required.
4. Non Employer Contributions
 - a. Special Funding: The State contributes 0.1% of members' compensation on behalf of local government entities.
 - b. Not Special Funding: The State contributes from the Coal Tax Severance fund

GALLATIN COUNTY, STATE OF MONTANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015

Stand-Alone Statements

The PERS financial information is reported in the Public Employees' Retirement Board's Comprehensive Annual Financial Report for the fiscal year ended. It is available from the PERB at 100 North Park, PO Box 200131, Helena MT 59620-0131, 406-444-3154.

CAFR information including our stand alone financial statements can be found on our website at <http://mpera.mt.gov/annualreports.shtml>.

The latest actuarial valuation and experience study can be found at our website at <http://mpera.mt.gov/actuarialvaluations.shtml>.

Actuarial Assumptions

The Total Pension Liability as of June 30, 2014, is based on the results of an actuarial valuation date of June 30, 2014. There were several significant assumptions and other inputs used to measure the Total Pension Liability. The actuarial assumptions used in the June 30, 2014, valuation were based on the results of the last actuarial experience study, dated May 2010, for the six-year period July 1, 2003 to June 30, 2009. Among those assumptions were the following:

- General Wage Growth* 4.00%
- *includes Inflation at 3.00%
- Merit Increases 0% to 6%
- Investment Return 7.75%
- Postretirement Benefit Increases
 - 3% for members hired prior to July 1, 2007
 - 1.5% for members hired on or after July 1, 2007

After the member has completed 12 full months of retirement, the member's benefit increases by the applicable percentage (provided below) each January, inclusive of other adjustments to the member's benefit.

*At this time as a result of permanent injunction issued in the AMRPE vs State litigation, the GABA rate in effect is being used in the calculation. Clarification of the GABA rate for members hired on or after July 1, 2013 is pending.

- Mortality assumptions among contributing members, terminated vested members, service retired members and beneficiaries based on RP 2000 Combined Employee and Annuitant Mortality Tables projected to 2015 with scale AA.
- Mortality assumptions among Disabled Retirees are based on RP 2000 Combined Employee and Annuitant Mortality Tables with no projections. No future mortality improvement is assumed.

Discount Rate

The discount rate used to measure the Total Pension Liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that contributions from participating plan members, employers, and non-employer contributing entities will be made based on the Board's funding policy, which establishes the contractually required rates under Montana Code Annotated. The State contributes 0.1% of salaries for local governments and 0.37% for school districts. In addition, the State contributes coal severance tax and interest money from the general fund. The interest is contributed monthly and the severance tax is contributed quarterly. Based on those assumptions, the System's fiduciary net position was projected to be adequate to make all the projected future benefit payments of current plan members through the year 2122. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability. No municipal bond rate was incorporated in the discount rate.

GALLATIN COUNTY, STATE OF MONTANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015

Target Allocations

<u>Asset Class</u>	<u>Target Asset Allocation</u>	<u>Long-term Expected Real Rate of Return</u>
Cash Equivalents	2.00%	-0.25%
Domestic Equity	36.00%	4.80%
Foreign Equity	18.00%	6.05%
Fixed Income	24.00%	1.68%
Private Equity	12.00%	8.50%
Real Estate	8.00%	4.50%

The long-term expected return on pension plan assets is reviewed as part of the regular experience studies prepared for the System. The most recent analysis, performed for the period covering fiscal years 2003 through 2009, is outlined in a report dated May 2010, which is located on the MPERA website. Several factors are considered in evaluating the long-term rate of return assumption including rates of return adopted by similar public sector systems, and by using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years. Best estimates are presented as the arithmetic real rates of return for each major asset class included in the System's target asset allocation as of June 30, 2014, is summarized in the above table.

Sensitivity Analysis

	1.0% Decrease	Current Discount	1.0% Increase
	-6.75%	Rate	-8.75%
PERS' Net Pension Liability	\$ 1,982,274,732	\$ 1,246,010,898	\$ 625,044,646
Employer's proportion	\$ 23,096,338	\$ 14,517,810	\$ 7,282,665

In accordance with GASB 68 regarding the disclosure of the sensitivity of the Net Pension Liability to changes in the discount rate, the above table presents the Net Pension Liability calculated using the discount rate of 7.75%, as well as what the Net Pension Liability would be if it were calculated using a discount rate that is 1.00% lower (6.75%) or 1.00% higher (8.75%) than the current rate.

Summary of Significant Accounting Policies

The Montana Public Employee Retirement Administration (MPERA) prepares its financial statements using the accrual basis of accounting. For the purposes of measuring the Net Pension Liability, deferred inflows of resources and deferred outflows of resources related to pensions, Pension Expense, information about the fiduciary net position and additions to/deductions from fiduciary net position have been determined on the same accrual basis as they are reported by MPERA. For this purpose, member contributions are recognized in the period in which contributions are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Revenues are recognized in the accounting period they are earned and become measurable. Benefit payments and refunds are recognized in the accounting period when due and payable in accordance with the benefit terms. Expenses are recognized in the period incurred. Investments are reported at fair value. MPERA adheres to all applicable Governmental Accounting Standards Board (GASB) statements.

GALLATIN COUNTY, STATE OF MONTANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015

Net Pension Liability

In accordance with GASB Statement 68, Accounting and Financial Reporting for Pensions, employers are required to recognize and report certain amounts associated with their participation in the Public Employees' Retirement System (PERS). Statement 68 became effective June 30, 2015, and includes requirements to record and report their proportionate share of the collective Net Pension Liability, Pension Expense, Deferred Inflows, and Deferred Outflows of resources associated with pensions.

In accordance with Statement 68, PERS has a special funding situation in which the State of Montana is legally responsible for making contributions directly to PERS on behalf of the employers. Due to the existence of this special funding situation, local governments and school districts are required to report the portion of the State of Montana's proportionate share of the collective Net Pension Liability that is associated with the employer.

The State of Montana also has a funding situation that is not Special Funding whereby the State General Fund provides contributions from the Coal Severance Tax and interest. All employers are required to report the portion of Coal Tax Severance Tax and interest attributable to the employer.

	Net Pension Liability as of 6/30/13	Net Pension Liability as of 6/30/14	Percent of Collective NPL
Employer Proportionate Share	\$ 18,682,191	\$ 14,517,810	1.1651430%
State of Montana Proportionate Share associated with Employer	\$ 228,138	\$ 177,285	1.4801160%
Total	\$ 18,910,329	\$ 14,695,095	2.6452590%

At June 30, 2015, the employer recorded a liability of \$14,517,810 for its proportionate share of the Net Pension Liability. The Net Pension Liability was measured as of June 30, 2014, and the Total Pension Liability used to calculate the Net Pension Liability was determined by an actuarial valuation as of July 1, 2014. The employer's proportion of the Net Pension Liability was based on the employer's contributions received by PERS during the measurement period July 1, 2013, through June 30, 2014, relative to the total employer contributions received from all of PERS' participating employers. At June 30, 2014, the employer's proportion was 1.165143 percent.

Changes in actuarial assumptions and methods: There were no changes in assumptions or other inputs that affected the measurement of the Total Pension Liability.

Changes in benefit terms: There have been no changes in benefit terms since the previous measurement date.

Changes in proportionate share: There were no changes between the measurement date of the collective Net Pension Liability and the employer's reporting date that are expected to have a significant effect on the employer's proportionate share of the collective NPL.

GALLATIN COUNTY, STATE OF MONTANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015

At June 30, 2015, the employer recognized a Pension Expense of \$1,117,635 for its proportionate share of the PERS' Pension Expense. The employer also recognized grant revenue of \$410,502 for the support provided by the State of Montana for its proportionate share of the Pension Expense that is associated with the employer.

	Pension Expense as of 6/30/14
Employer's Proportionate Share	\$ 707,133
State of Montana Proportionate share	<u>410,502</u>
	\$ 1,117,635

Recognition of Beginning Deferred Outflow - GASB 71

At June 30, 2015, the employer recognized a beginning deferred outflow of resources for the employers FY2014 contributions of \$1,120,248.

Deferred Inflows and Outflows

At June 30, 2015, the employer reported its proportionate share of PERS' deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between actual and expected experience	\$ -	\$ -
Changes in assumptions	-	-
Difference between projected and actual earnings on pension plan investments	-	3,751,163
Changes in proportion differences between employer contributions and proportionate share of contributions	-	5,373
Difference between actual and expected contributions	1,165,531	-
#Contributions paid to PERS subsequent to the measurement date - FY 2015		
Total	\$ 1,165,531	\$ 3,756,536

#Amounts reported as deferred outflows of resources related to pensions resulting from the employer's contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the year ended June 30, 2016. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in Pension Expense as follows:

Year ended June 30:	Deferred Outflows of Resources	Deferred Inflows of Resources	Amount recognized in Pension Expense as an increase or (decrease) to Pension Expense
2016	-	939,582	(939,582)
2017	-	939,582	(939,582)
2018	-	939,791	(937,791)
2019	-	-	-
Thereafter	-	-	-

2. Sheriffs' Retirement System (SRS):

Plan Description

The Sheriffs' Retirement System (SRS), administered by the Montana Public Employee Retirement Administration (MPERA), is a multiple-employer, cost-sharing defined benefit plan established July 1, 1974, and governed by Title 19, chapters 2 & 7, MCA. This plan provides retirement benefits to all Department of Justice criminal and gambling investigators hired after July 1, 1993, all detention officers hired after July 1, 2005, and to all Montana sheriffs. Benefits are established by state law and can only be amended by the Legislature. The SRS provides retirement, disability and death benefits to plan members and their beneficiaries. Benefits are based on eligibility, years of service and highest average compensation. Member rights are vested after five years of service.

Summary of Benefits

Member's highest average compensation (HAC)

Hired prior to July 1, 2011 - highest average compensation during any consecutive 36 months;

Hired on or after July 1, 2011 - highest average compensation during any consecutive 60 months.

Hired on or after July 1, 2013 - 110% annual cap on compensation considered as a part of a member's highest average compensation.

Eligibility for benefit

20 years of membership service, regardless of age.

Early Retirement

Age 50, 5 years of membership service, actuarially reduced.

Vesting

5 years of membership service.

Monthly benefit formula

2.5% of HAC per year of service.

Guaranteed Annual Benefit Adjustment (GABA)

After the member has completed 12 full months of retirement, the member's benefit increases by the applicable percentage (provided below) each January, **inclusive** of all other adjustments to the member's benefit.

- 3% for members hired **prior to** July 1, 2007
- 1.5% for members hired **on or after** July 1, 2007

Total number of members (employees) covered by benefit terms as of June 30, 2015:

1. Active plan members: 1,336
2. Inactive members entitled to but not yet receiving benefits or a refund:
Vested: 81
Non-vested: 342
3. Inactive members and beneficiaries currently receiving benefits:
Service Retirements: 523
Disability Retirements: 32
Survivor Benefits: 22

Overview of Contributions

1. Rates are specified by state law for periodic employer and employee contributions. The State legislature has the authority to establish and amend contribution rates to the plan.
2. Member contributions to the system
 - a. Plan members are required to contribute 9.245% of member's compensation. Contributions are deducted from each member's salary and remitted by participating employers.
3. Employer contributions to the system:
 - a. The employers are required to contribute 9.825% of members' compensation.
 - b. Effective July 1, 2013, employer contributions are required to be paid on working retiree compensation. Member contributions are not required for working retirees.

GALLATIN COUNTY, STATE OF MONTANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015

Stand-Alone Statements

The SRS financial information is reported in the Public Employees' Retirement Board's *Comprehensive Annual Financial Report* for the fiscal year ended. It is available from the PERB at 100 North Park, PO Box 200131, Helena MT 59620-0131, 406-444-3154.

CAFR information including our stand alone financial statements can be found on our website at <http://mpera.mt.gov/annualReports.shtml>

The latest actuarial valuation and experience study can be found at our website at <http://mpera.mt.gov/actuarialValuations.asp>

Actuarial Assumptions

The Total Pension Liability as of June 30, 2014, is based on the results of an actuarial valuation date of June 30, 2014. There were several significant assumptions and other inputs used to measure the Total Pension Liability. The actuarial assumptions used in the June 30, 2014, valuation were based on the results of the last actuarial experience study, dated May 2010, for the six-year period July 1, 2003 to June 30, 2009. Among those assumptions were the following:

• General Wage Growth*	4.00%
• *includes Inflation at	3.00%
• Merit Increases	0% to 7.3%
• Investment Return	7.75%
• Postretirement Benefit Increases	
• For members hired prior to July 1, 2007	3.00%
• For members hired on or after July 1, 2007	1.50%

After the member has completed 12 full months of retirement, the member's benefit increases by the applicable percentage each January, **inclusive** of other adjustments to the member's benefit.

- Mortality assumptions among contributing members, terminated vested members, service retired members and beneficiaries based on RP 2000 Combined Employee and Annuitant Mortality Tables projected to 2015 with scale AA.
- Mortality assumptions among Disabled Retirees are based on RP 2000 Combined Employee and Annuitant Mortality Tables with no projections. No future mortality improvement is assumed.

Discount Rate

The discount rate used to measure the Total Pension Liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that contributions from participating plan members, employers, and non-employer contributing entities will be made based on the Board's funding policy, which establishes the contractually required rates under Montana Code Annotated. Based on those assumptions, the System's fiduciary net position was projected to be adequate to make all the projected future benefit payments of current plan members through the year 2122. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability. No municipal bond rate was incorporated in the discount rate.

These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The assumption is intended to be a long term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years. Best estimates are presented as the arithmetic real rates of return for each major asset class included in the System's target asset allocation as of June 30, 2014, is summarized in the above table.

Sensitivity Analysis

	1.0% Decrease	Current Discount	1.0% Increase
	-6.75%	Rate	-8.75%
SRS' Net Pension Liability	\$ 87,589,281	\$ 41,617,020	\$ 3,675,904
Employer's proportion	\$ 7,078,264	\$ 3,363,154	\$ 297,057

In accordance with GASB 68 regarding the disclosure of the sensitivity of the Net Pension Liability to changes in the discount rate, the above table presents the Net Pension Liability calculated using the discount rate of 7.75%, as well as what the Net Pension Liability would be if it were calculated using a discount rate that is 1.00% lower (6.75%) or 1.00% higher (8.75%) than the current rate.

Summary of Significant Accounting Policies

The Montana Public Employee Retirement Administration (MPERA) prepares its financial statements using the accrual basis of accounting. For the purposes of measuring the Net Pension Liability, deferred inflows of resources and deferred outflows of resources related to pensions, Pension Expense, information about the fiduciary net position and additions to/deductions from fiduciary net position have been determined on the same accrual basis as they are reported by MPERA. For this purpose, member contributions are recognized in the period in which contributions are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Revenues are recognized in the accounting period they are earned and become measurable. Benefit payments and refunds are recognized in the accounting period when due and payable in accordance with the benefit terms. Expenses are recognized in the period incurred. Investments are reported at fair value. MPERA adheres to all applicable Governmental Accounting Standards Board (GASB) statements.

GALLATIN COUNTY, STATE OF MONTANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015

Net Pension Liability

In accordance with GASB Statement 68, Accounting and Financial Reporting for Pensions, employers are required to recognize and report certain amounts associated with their participation in the Sheriffs' Retirement System (SRS). Statement 68 became effective June 30, 2015, and includes requirements to record and report their proportionate share of the collective Net Pension Liability, Pension Expense, Deferred Inflows, and Deferred Outflows of resources associated with pensions.

	Net Pension Liability as of 6/30/13	Net Pension Liability as of 6/30/14	Percent of Collective NPL
Employer Proportionate Share	\$ 8,629,749	\$ 3,363,154	8.0811990%

At June 30, 2015, the employer recorded a liability of \$3,363,154 for its proportionate share of the Net Pension Liability. The Net Pension Liability was measured as of June 30, 2014, and the Total Pension Liability used to calculate the Net Pension Liability was determined by an actuarial valuation as of July 1, 2014. The employer's proportion of the Net Pension Liability was based on the employer's contributions received by SRS during the measurement period July 1, 2013, through June 30, 2014, relative to the total employer contributions received from all of SRS' participating employers. At June 30, 2014, the employer's proportion was 8.081199 percent.

Changes in actuarial assumptions and methods: Because the beginning and ending values are based on the same actuarial valuation and there were no significant events, no liability gains or losses due to experience are reported this year. The plan did report a change in assumption because there was an increase in the discount rate resulting in a decrease in the Liability. There were no other changes in assumptions or other inputs that affected the measurement of the Total Pension Liability.

Changes in benefit terms: There have been no changes in benefit terms since the previous measurement date.

Changes in proportionate share: There were no changes between the measurement date of the collective Net Pension Liability and the employer's reporting date that are expected to have a significant effect on the employer's proportionate share of the collective NPL.

Pension Expense

	Pension Expense as of 6/30/14
Employer's Proportionate Share	\$187,898

At June 30, 2015, the employer recognized a Pension Expense of \$187,898 for its proportionate share of the SRS' Pension Expense.

Recognition of Beginning Deferred Outflow - GASB 71

At June 30, 2015, the employer recognized a beginning deferred outflow of resources for the employers FY2014 contributions of \$540,577.

GALLATIN COUNTY, STATE OF MONTANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015

Deferred Inflows and Outflows

At June 30, 2015, the employer reported its proportionate share of SRS' deferred outflows of resources and deferred inflows of resources related to SRS from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between actual and expected experience	\$ -	\$ -
Changes in assumptions	-	3,431,666
Difference between projected and actual earnings on pension plan investments	-	1,482,250
Changes in proportion differences between employer contributions and proportionate share of contributions	-	-
Difference between actual and expected contributions	563,399	-
#Contributions paid to SRS subsequent to the measurement date - FY 2015		
Total	\$ 563,399	\$ 4,913,916

#Amounts reported as deferred outflows of resources related to pensions resulting from the employer's contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the year ended June 30, 2016. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in Pension Expense as follows:

Year ended June 30:	Deferred Outflows of Resources	Deferred Inflows of Resources	Amount recognized in Pension Expense as an increase or (decrease) to Pension Expense
2016	-	942,488	(942,488)
2017	-	942,488	(942,488)
2018	-	942,488	(942,488)
2019	-	571,983	(571,983)
Thereafter	-	571,983	(571,983)

GALLATIN COUNTY, STATE OF MONTANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015

4. Teachers' Retirement System (TRS):

A. Net Pension Liability

In accordance with GASB Statement 68, Accounting and Financial Reporting for Pensions, employers are required to recognize and report certain amounts associated with their participation in the Montana Teachers' Retirement System (TRS or the System). Statement 68 became effective June 30, 2015, and includes requirements to record and report their proportionate share of the collective Net Pension Liability, Pension Expense, Deferred Inflows and Deferred Outflows of resources associated with pensions. In accordance with Statement 68, the System has a special funding situation in which the State of Montana is legally responsible for making contributions directly to TRS that are used to provide pension benefits to the retired members of TRS. Due to the existence of a special funding situation, employers are also required to report the portion of the State of Montana's proportionate share of the collective Net Pension Liability that is associated with the employer.

	Net Pension Liability as of 6/30/13	Net Pension Liability as of 6/30/14	Percent of Collective NPL
Employer Proportionate Share	\$ 90,423	\$ 78,229	0.0051%
State of Montana Proportionate Share associated with Employer	<u>65,002</u>	<u>56,237</u>	<u>0.0037%</u>
Total	\$ 155,425	\$ 134,466	0.0088%

At June 30, 2015, the employer recorded a liability of \$78,229 for its proportionate share of the Net Pension Liability. The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2014. The employer's proportion of the net pension liability was based on the employer's contributions received by TRS during the measurement period July 1, 2013, through June 30, 2014, relative to the total employer contributions received from all of TRS' participating employers. At June 30, 2014, the employer's proportion was 0.0051 percent.

Changes in actuarial assumptions and methods: The following changes in assumptions or other inputs that affected the measurement of the Total Pension Liability have been made since the previous measurement date.

- Assumed rate of inflation was reduced from 3.50% to 3.25%
- Payroll Growth Assumption was reduced from 4.50% to 4.00%
- Assumed real wage growth was reduced from 1.00% to 0.75%
- Investment return assumption was changed from net of investment and administrative expensed to net of investment expenses only.
- Mortality among contributing members, service retired members, and beneficiaries was updated to the following:
 - For Males: RP 2000 Healthy Annuitant Mortality Table for ages 50 and above and the RP 2000 Combined Healthy Annuitant Mortality Table for ages below 50, set back four years, with mortality improvements projected by Scale BB to 2018.
 - For Females: RP 2000 Healthy Annuitant Mortality Table for ages 50 and above and the RP 2000 Combined Healthy Annuitant Mortality Table for ages below 50, set back two years, with mortality improvements projected by Scale BB to 2018.

GALLATIN COUNTY, STATE OF MONTANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015

- Mortality among disabled members was updated to the following:
 - For Males: RP 2000 Disabled Mortality Table for Males, set forward one year, with mortality improvements projected by Scale BB to 2018.
 - For Females: RP 2000 Disabled Mortality Table for Females, set forward five years, with mortality improvements projected by Scale BB to 2018.

Changes in benefit terms: There have been no changes in benefit terms since the previous measurement date.

Changes in proportionate share: There were no changes between the measurement date of the collective net pension liability and the employer's reporting date that are expected to have a significant effect on the employer's proportionate share of the collective NPL.

Pension Expense

	1.0% Decrease	Current Discount	1.0% Increase
	-6.75%	Rate	-8.75%
Employer's proportion of Net Pension Liability	\$ 108,685	\$ 78,229	\$ 52,498

At June 30, 2015, the employer recognized a Pension Expense of \$7,530 for its proportionate share of the TRS' pension expense. The employer also recognized grant revenue of \$3,149 for the support provided by the State of Montana for its proportionate share of the pension expense that is associated with the employer.

Recognition of Beginning Deferred Outflow – GASB 71

At June 30, 2015, the employer recognized a beginning deferred outflow of resources for the employers FY 2014 contributions of \$5,430.

Deferred Inflows and Outflows

At June 30, 2015, the employer reported its proportionate share of TRS' deferred outflows of resources and deferred inflows of resources related to TRS from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between actual and expected experience	\$ 774	\$ -
Changes in assumptions	1,773	-
Difference between projected and actual earnings on pension plan investments	-	12,117
Changes in proportion differences between employer contributions and proportionate share of contributions	-	1,575
Difference between actual and expected contributions	5,536	-
#Contributions paid to TRS subsequent to the measurement date - FY 2015		
Total	\$ 8,083	\$ 13,692

GALLATIN COUNTY, STATE OF MONTANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015

*Amounts reported as deferred outflows of resources related to pensions resulting from the employer's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	Deferred Outflows of Resources	Deferred Inflows of Resources	Amount recognized in Pension Expense as an increase or (decrease) to Pension Expense
2016	849	3,423	(2,574)
2017	849	3,423	(2,574)
2018	849	3,423	(2,574)
2019	-	3,423	(3,423)
Thereafter	-	-	-

Plan Description

Teachers' Retirement System (TRS or the System) is a mandatory-participation, multiple-employer cost-sharing, defined-benefit, public pension plan that provides retirement services to individuals employed as teachers, administrators, and in other professional and skilled positions employed in public education in Montana.

The TRS Board is the governing body of the System and the TRS staff administers the system in conformity with the laws set forth in Title 19, chapter 20 of the Montana Code Annotated, and administrative rules set forth in Title 2, chapter 44 of the Administrative Rules of Montana. Additional information pertaining to membership, benefit structure, and prior years' actuarial valuations, as well as links to applicable statutes and administrative rules, may be obtained by visiting the TRS web site at trs.mt.gov.

Summary of Benefits

Through June 30, 2013, all members enrolled in TRS participated in a single-tiered plan ("Tier One"). Employees with a minimum of 25 years of service or who have reached age 60 with 5 years of service are eligible to receive an annual retirement benefit equal to creditable service years divided by 60 times the average final compensation. Final compensation is the average of the highest three consecutive years of earned compensation. Benefits fully vest after 5 years of creditable service. Vested employees may retire at or after age 50 and receive reduced retirement benefits. Beginning July 1, 2013, new members in TRS participate in a second benefit tier ("Tier Two"), which differs from Tier One as follows:

- Tier Two uses a 5-year average final compensation (as opposed to 3-year AFC in Tier One)
- Tier Two provides for unreduced service retirement benefits at age 60 with 5 years of creditable service or at age 55 with at least 30 years of creditable service (rather than at age 60 with 5 years of service or at any age with creditable service in 25 years in Tier One)
- Tier Two provides for early retirement benefits with 5 years of creditable service at age 55 (rather than age 50 in Tier One)
- Tier Two has a one percent higher normal employee contribution rate (though a temporary 1% supplemental employee contribution rate is also now currently in place for Tier One members), and
- Tier Two provides for an enhanced benefit calculation - 1.85% x AFC x years of creditable service - for members retiring with at least 30 years of creditable service and at least 60 years of age (rather than 1.6667 x AFC x years of creditable service)

GALLATIN COUNTY, STATE OF MONTANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015

A guaranteed annual benefit adjustment (GABA) is payable on January 1st of each calendar year for each retiree who has received at least 36 monthly retirement benefit payments prior to that date. The GABA is applicable to both Tier One and Tier Two members. The GABA calculated prior to July 1, 2013, was 1.5% of the benefit payable as of January 1st. Effective July 1, 2013, the GABA to be calculated for Tier One and Tier Two members each year may vary from 0.5% to 1.5% based on the retirement system's funding status and the period required to amortize any unfunded accrued actuarial liability as determined in the prior actuarial valuation. The legislative enactment that allows for reduction of the GABA for Tier One members is currently being litigated. A temporary restraining order requires continued calculation of the GABA at the full 1.5% rate for Tier One members pending resolution of the litigation.

Overview of Contributions

The System receives a portion of the total required statutory contributions directly from the State for all employers. The employers are considered to be in a special funding situation as defined by GASB 68 and the State is treated as a non-employer contributing entity in TRS. The System receives 2.49% of reportable compensation from the State's general fund for School Districts and Other Employers. The System also receives 0.11% of reportable compensation from the State's general fund for State and University Employers. Finally, the State is also required to contribute \$25 million in perpetuity payable July 1st of each year.

MCA 19-20-605 requires each employer to contribute 9.85% of total compensation paid to all re-employed TRS retirees employed in a TRS reportable position. Pursuant to MCA 19-20-609, this amount shall increase by 1.00% for fiscal year 2014 and increase by 0.10% each fiscal year through 2024 until the total employer contribution is equal to 11.85% of re-employed retiree compensation.

The tables below show the history of legislated contributions for TRS members, employers, and the State.

School District and Other Employers

	<u>Members</u>	<u>Employers</u>	<u>General Fund</u>	<u>Total Employee & Employer</u>
Prior to July 1, 2007	7.15%	7.47%	0.11%	14.73%
July 1, 2007 to June 30, 2009	7.15%	7.47%	2.11%	16.73%
July 1, 2009 to June 30, 2013	7.15%	7.47%	2.49%	17.11%
July 1, 2013 to June 30, 2014	8.15%	8.47%	2.49%	19.11%
July 1, 2014 to June 30, 2015	8.15%	8.57%	2.49%	19.21%
July 1, 2015 to June 30, 2016	8.15%	8.67%	2.49%	19.31%
July 1, 2016 to June 30, 2017	8.15%	8.77%	2.49%	19.41%
July 1, 2017 to June 30, 2018	8.15%	8.87%	2.49%	19.51%
July 1, 2018 to June 30, 2019	8.15%	8.97%	2.49%	19.61%
July 1, 2019 to June 30, 2020	8.15%	9.07%	2.49%	19.71%
July 1, 2020 to June 30, 2021	8.15%	9.17%	2.49%	19.81%
July 1, 2021 to June 30, 2022	8.15%	9.27%	2.49%	19.91%
July 1, 2022 to June 30, 2023	8.15%	9.37%	2.49%	20.01%
July 1, 2023 to June 30, 2024	8.15%	9.47%	2.49%	20.11%

TRS Stand-Alone Statements

TRS' stand-alone financial statements, actuarial valuations and experience studies can be found online at <https://trs.mt.gov/TrsInfo/NewsAnnualReports>.

GALLATIN COUNTY, STATE OF MONTANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015

Actuarial Assumptions

The Total Pension Liability as of June 30, 2014, is based on the results of an actuarial valuation date of July 1, 2014. There were several significant assumptions and other inputs used to measure the total pension liability. The actuarial assumptions used in the July 1, 2014, valuation were based on the results of the last actuarial experience study, dated May 1, 2014. Among those assumptions were the following:

- Total Wage Increases* 8.51%
- Investment Return 7.75%
- Price Inflation 3.25%
- Postretirement Benefit Increases 1.50%
(starting three years after retirement)
- Mortality among contributing members, service retired members, and beneficiaries
 - For Males: RP 2000 Healthy Annuitant Mortality Table for ages 50 and above and the RP 2000 Combined Healthy Annuitant Mortality Table for ages below 50, set back four years, with mortality improvements projected by Scale BB to 2018.
 - For Females: RP 2000 Healthy Annuitant Mortality Table for ages 50 and above and the RP 2000 Combined Healthy Annuitant Mortality Table for ages below 50, set back two years, with mortality improvements projected by Scale BB to 2018.
- Mortality among disabled members
 - For Males: RP 2000 Disabled Mortality Table for Males, set forward one year, with mortality improvements projected by Scale BB to 2018.
 - For Females: RP 2000 Disabled Mortality Table for Females, set forward five years, with mortality improvements projected by Scale BB to 2018.

*Total Wage Increases include 4.00% general wage increase assumption and 4.51% merit and longevity increases.

Discount Rate

The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that contributions from participating plan members, employers, and non-employer contributing entities will be made based on the Board's funding policy, which establishes the contractually required rates under Montana Code Annotated. In addition to the contributions the State general fund will contribute \$25 million annually to the System payable July 1st of each year. Based on those assumptions, the System's fiduciary net position was projected to be adequate to make all the projected future benefit payments of current plan members through the year 2116. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. No municipal bond rate was incorporated in the discount rate.

Target Allocations

<u>Asset Class</u>	<u>Target Asset Allocation</u>	<u>Real Rate of Return Arithmetic Basis</u>
Broad U.S. Equity	36.00%	4.80%
Broad International Equity	18.00%	6.05%
Private Equity	12.00%	8.50%
Intermediate Bonds	23.40%	1.50%
Core Real Estate	4.00%	4.50%
High Yield Bonds	2.60%	3.25%
Non-Core Real Estate	<u>4.00%</u>	7.50%
	<u>100.00%</u>	

GALLATIN COUNTY, STATE OF MONTANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015

The long-term expected return on pension plan assets is reviewed as part of the regular experience studies prepared every four years for the System. The most recent analysis, performed for the period covering fiscal years 2008 through 2013, is outlined in a report dated May 1, 2014. Several factors are considered in evaluating the long-term rate of return assumption including long term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans, which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years. Best estimates of arithmetic real rates of return for each major asset class included in the System's target asset allocation as of June 30, 2014, is summarized in the above table.

Sensitivity Analysis

	1.0% Decrease	Current Discount	1.0% Increase
	-6.75%	Rate	-8.75%
Employer's proportion of Net Pension Liability	\$ 108,685	\$ 78,229	\$ 52,498

In accordance with GASB 68 regarding the disclosure of the sensitivity of the net pension liability to changes in the discount rate, the above table presents the net pension liability calculated using the discount rate of 7.75%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1.00% lower (6.75%) or 1.00% higher (8.75%) than the current rate.

Summary of Significant Accounting Policies

The Teachers' Retirement System prepares its financial statements using the accrual basis of accounting. For the purposes of measuring the Net Pension Liability, deferred inflows of resources and deferred outflows of resources related to pensions, pension expense, information about the fiduciary net position of the Teachers' Retirement System (TRS) and additions to/deductions from TRS's fiduciary net position have been determined on the same accrual basis as they are reported by TRS. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. TRS adheres to all applicable Governmental Accounting Standards Board (GASB) statements.

TRS' stand-alone financial statements, actuarial valuations and experience studies can be found online at <https://trs.mt.gov/TrsInfo/NewsAnnualReports>.

Local Retirement Plans

The County offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan available to all County employees permits them to defer a portion of their salary until future years. Participation in the plan is optional. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency.

GALLATIN COUNTY, STATE OF MONTANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015

H. Restricted Cash and Investments

The following restricted cash and investments were held by the County as of June 30, 2015. These amounts are reported within the cash and investment account on fund financial statements.

<u>Description</u>	<u>Amount</u>
Gallatin County Landfill	\$ 2,161,138
Total	<u>\$ 2,161,138</u>

I. Restricted Fund Balance and Net Position

Restricted Fund Balance shows amounts that are not appropriate for expenditure or are legally restricted for specific uses. The restricted net position in the proprietary funds is for landfill closure and post closure requirements and loan document requirements.

J. Landfill Closure and Post Closure Care Costs

State and Federal laws and regulations require that the County place a final cover on its landfill when it stops accepting waste and perform certain maintenance and monitoring functions at the site for thirty years after closure. The County has elected to use the Local Government Financial Test to satisfy its financial responsibility under RCRA Subtitle D. Although closure and post closure care costs will be paid only near or after the date the landfill stops accepting waste, the landfill reports a portion of these closure and post closure care costs as an operating expense each period. The costs expensed during a period are based on landfill capacity used as of each balance sheet date. Independent engineering reports show that there is a \$1,963,477 liability for landfill closure and post closure as of June 30, 2015, which represents the cumulative amount reported to date based on the use of 54.01% of the estimated capacity of the landfill. The remaining estimated cost of closure and post closure care will be recognized as the remaining estimated capacity is filled.

The estimated total current cost of closure and post closure care remaining to be recognized is \$1,672,223. These amounts are based on what it should cost to perform all closure and post closure in 2015. The County expects to close the landfill in the year 2026. Actual costs may be higher due to inflation, changed in technology or changes in regulations. The engineering report estimates 11.3 years of life remaining from the date of the report – August 2015.

The County is required by State and Federal laws and regulations to demonstrate financial assurance for the costs of closure and post closure care costs. For the fiscal year ended June 30, 2015 the County demonstrated its ability to handle closure and post closure care costs by passing the local government financial test.

K. Services Provided to Other Governments

The County provides various financial services to other governmental entities located within the County. The County serves as the billing agent, cashier and treasurer for tax and assessment collections for various taxing jurisdictions. The County also is a bank for such agencies as school districts, irrigation districts, rural fire districts, and other special purpose districts. The funds collected and held by the County for other entities are accounted for in agency funds. Funds collected for incorporated cities and towns are periodically remitted to those entities by the County Treasurer. The County has not recorded any service charges for the services it provides other governmental entities.

GALLATIN COUNTY, STATE OF MONTANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015

L. Risk Management

The County faces a considerable number of risks of loss, including (a) damage to and loss of property and contents, (b) employee torts, (c) professional liability, i.e., errors and omissions, (d) environmental damage, (e) workers' compensation, i.e. employee injuries, and (f) medical insurance costs of employees. Commercial policies transferring all risks of loss, except for relatively small deductible amounts are purchased for property and content damage, employees' torts, and professional liabilities. Employee medical insurance is provided for by purchase of re-insurance, and given the lack of coverage available; the County has minimal coverage for potential losses from environmental damages. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years. The County has contracted with Traveler's insurance company for workers' compensation coverage. The County budgets and pays the required premium on a quarterly basis.

Self-Insurance

The County provides medical insurance coverage for its employees via a partially self-insured plan. It provides medical and dental benefits and is operated as an Internal Service Fund. Rates are determined in consultation with the administrator based on past claim experience. Incurred but unreported claims at June 30, 2015, were estimated by the plan administrator. Claims payable as of yearend are:

	<u>2013</u>	<u>2014</u>	<u>2015</u>
Beginning claims payable	\$ 270,391	\$ 248,793	\$ 321,733
Claims incurred	4,591,793	5,681,109	4,713,940
Claims paid	<u>(4,613,391)</u>	<u>(5,608,169)</u>	<u>(4,801,373)</u>
Ending claims payable	<u>\$ 248,793</u>	<u>\$ 321,733</u>	<u>\$ 234,300</u>

M. Commitments

At June 30, 2015, the County had approximate contractual commitments of the following:

Department	Amount	Project
Finance	\$ 2,108	Engineering and Design of new No FG entrance & road
Finance	7,584	FG Access Road Improvements

GALLATIN COUNTY, STATE OF MONTANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015

Future appropriations will fund these commitments as work is performed.

N. Other Postemployment Benefits (OPEB)

As required by Governmental Accounting Standards Board (GASB) Statement No. 45 Other Postemployment Benefits, the County has calculated and included a post employment benefit liability in 2015.

Plan Description

The County maintains a single-employer self-insured medical plan. The plan currently provides defined healthcare insurance benefits for eligible employees, retirees, spouses and dependants, included are medical, dental, and vision benefits. Participation is elected by the retiree at the time of retirement. Benefit provisions are set annually by the Board of County Commissioners and may be revoked or altered at any time.

Funding Policy

The County provides no direct subsidy to the health insurance premiums for retirees. Retirees pay for the entire cost of the health insurance premium. Eligible retired employees include former fulltime and certain other employees. As of June 2015 there are 34 retirees and/or survivors enrolled for the employer's sponsored health insurance plan.

Annual OPEB Cost Obligation.

The County's other postemployment benefit (OPEB) cost (expense) is calculated based on the entry age normal actuarial cost method. Under this method, each individual's present value of benefits is levelly spread over the individual's projected earnings or service from entry age to assumed exit age. Typically, when this method is introduced, it tends to produce lower initial contributions while still keeping contributions level as a percentage of payroll.

Annual required contribution	\$ 314,947
Interest on net OPEB obligation	37,343
Adjustment to annual required contribution	<u>(51,261)</u>
Annual OPEB cost (expense)	301,029
Contributions made	<u>(149,913)</u>
Increase in net OPEB obligation	151,116
Net OPEB obligation - beginning of year	<u>1,493,723</u>
Net OPEB obligation - end of year	<u>\$ 1,644,839</u>

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB obligation for the years ended June 30, 2015, 2014, 2013, and 2012 are as follows:

Fiscal Year Ended	Annual OPEB Cost	% of Annual OPEB Cost Contributed	Net OPEB Obligation
2012	\$ 201,457	35.6%	\$ 960,268
2013	\$ 444,924	38.2%	\$ 1,234,879
2014	\$ 467,768	44.7%	\$ 1,493,723
2015	\$ 301,029	49.8%	\$ 1,644,839

GALLATIN COUNTY, STATE OF MONTANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015

Funded Status and Funding Progress

As of June 30, 2015, the most recent actuarial valuation date, the actuarial accrued liability (AAL) for benefits was \$2,843,552 all of which was unfunded. There are no assets set aside to fund these benefits as the County funds post-retirement health insurance benefits on a pay-as-you-go basis. The covered payroll (annual payroll of active employees covered by the Plan) was \$18,165,236 and the ratio of the unfunded actuarial accrued liability to the covered payroll was 15.7%.

The projection of future benefit payments for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the note to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. The following assumptions were made:

1. Retirement and Disability rates are assumed to follow the RP2000 Healthy Combined Table with mortality improvements by Scale AA on a fully generational basis.
2. Turnover rates were based on specific gender age data assigning active members a probability of remaining employed until the assumed retirement age and for developing an expected future working lifetime assumption for purposes of allocating to periods the present value of total benefits to be paid.
3. Amortization factor for a 30-year, level percent of pay amortization on an open basis, using a 2.5 percent discount rate and a 4 percent payroll growth assumption.
4. Healthcare cost trend rate (HCCTR) was based on projections from historical rates of the County. A rate of 5.0% initially in 2015 with variations of 1% to 3.0% in subsequent years.

O. Pending Litigation

The County is involved in numerous lawsuits, which arise out of the normal course of operations. Management intends to vigorously defend each claim, and does not believe any of the outstanding cases have a probable negative outcome. It is reasonably possible that some of the cases may result in future losses, but, based on the complexities of each case, it is not possible to determine or reasonably estimate any losses as of the date of this financial report.

GALLATIN COUNTY, STATE OF MONTANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015

P. PRIOR PERIOD RESTATEMENT

For the year ended June 30, 2015, the County has implemented GASB Statement No. 68, regarding the reporting of pension liabilities, and GASB Statement No. 71, regarding reporting of pension contributions subsequent to the measurement date of June 30, 2014. Accordingly, beginning net position has been restated to reflect the previously unrecognized pension liability as follows:

	<u>Govt Activities</u>	<u>Bus-Type Activities</u>
Beginning net position, as originally reported	\$ 145,025,890	\$ 21,903,160
Pension liability, June 30, 2013	(23,592,497)	(3,815,136)
Retirement contributions in 2014	<u>1,437,551</u>	<u>228,704</u>
Net restatement	<u>(22,154,946)</u>	<u>(3,586,432)</u>
Beginning net position, as restated	<u>\$ 122,870,944</u>	<u>\$ 18,316,728</u>

As the pension expense, deferred inflows and deferred outflows related to the net pension liability were not available for the period ending June 30, 2014, the prior year financial statements have not been restated.

SCHEDULES:
NONMAJOR SPECIAL REVENUE FUNDS**

GALLATIN COUNTY, STATE OF MONTANA

SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for the proceeds of specific sources (other than expendable trusts or major capital projects) that are legally restricted to expenditures for specified purposes.

Levied or Assessment Funds:

Road Fund – Tracks the receipt of property tax revenue, along with dedicated non-tax revenues and used to fund expenditures for roads outside the incorporated cities or towns.

Predatory Animal Control Funds – Used to account for the receipt of a per license fee on sheep or cattle revenues and tracks related expenditures for the purpose of paying bounties on predatory animals killed within the county.

Fair Fund – Tracks the receipt of property tax revenue, along with dedicated non-tax revenues and used to fund expenditures for maintenance of fairgrounds and production of fair.

Mosquito Control District Funds – Tracks the receipt of the special assessment property tax revenue, along with dedicated non-tax revenues and used to fund expenditures for the control of mosquitoes within the two districts.

Three Rivers Mosquito District

Riverside Mosquito District

Library Fund – Tracks the receipt of property tax revenue levied outside the incorporated cities or towns, along with dedicated non-tax revenues and used to fund contracts with the five library’s so rural residents can use the libraries at no cost.

County Wide Planning Fund – Tracks the receipt of property tax revenue levied outside zoning districts and outside city and towns, along with dedicated non-tax revenues and used to fund the planning department and the county planning board.

Zoning District Funds – Track the receipt of a special assessment property tax revenue from property within any type 1 zoning district and used to fund expenditures of the planning departments activity relative to each zoning district.

River Rock

So. Gallatin Canyon

Hebgen Lake

Bridger Canyons

Hyalite

Sypes Canyon #1

Sypes Canyon #2

Wheatland

Zoning #6

Bear Canyon

Springhill

Trail Creek

Big Sky

Zoning #1

Manhattan Jurisdictional Area

Health Fund – Tracks the receipt of property tax revenue, along with dedicated non-tax revenues used to fund expenditures for the City / County Health Department and the Western Montana Mental Health Association contract.

GALLATIN COUNTY, STATE OF MONTANA

SPECIAL REVENUE FUNDS

County Emergency Fund – Tracks the receipt of property tax revenue, along with dedicated non-tax revenues used to fund expenditures for emergency events outside incorporated city’s or town’s.

Public Safety Fund – Used to account for the receipt of property tax revenue, along with dedicated non-tax revenues used to fund expenditures for Law Enforcement activities for the County.

Permissive Medical Levy Fund – Tracks the receipt of property tax revenue, along with dedicated non-tax revenues used to fund expenditures for the increases in premiums for county employees working in Governmental Funds.

Lighting District Funds – Used to account for the receipt of the special assessment property tax revenue, along with dedicated non-tax revenues and used to fund expenditures for the 4 lighting districts.

Churchill
Riverside

Logan
Willow Creek

Rural Improvement Maintenance District Funds - Tracks the receipt of the special assessment property tax revenue, along with dedicated non-tax revenues, used to fund expenditures for the maintenance of the improvements within the Rural Improvement Maintenance Districts:

Big Sky	Riverside	Hitching Post
Riverside Water / Sewer	Middle Creek Meadows	Hyalite Heights
Hebgen Lake	Gardner Park	Big Sky Meadow

Note 1. Basis of Presentation:

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal grant activity of Gallatin County under programs of the federal government for the year ended June 30, 2015. The information in this schedule is presented in accordance with the requirements of the Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Because the schedule presents only a selected portion of the operations of Gallatin County, it is not intended to and does not present the financial position, changes in net assets or cash flows of Gallatin County.

Note 2. Summary of Significant Accounting Policies:

Expenditures reported on the Schedule are presented on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, *Cost Principles for State, Local and Indian Governments*.

Note 3. Subrecipients:

Of the federal expenditures presented in the schedule, Gallatin County provided federal awards to subrecipients as follows:

Program Name:	CFDA #:	Subrecipient:	Amt Provided to Subrecipient:
DOJ Byrne Formula Missouri River Drug Task Force	16.738	City of Bozeman	\$ 69,421.83
DOJ Byrne Formula Missouri River Drug Task Force	16.738	Broadwater Co Sheriff	\$ 0.00
DOJ Byrne Formula Missouri River Drug Task Force	16.738	City of Helena	\$ 31,869.90
DOJ Byrne Formula Missouri River Drug Task Force	16.738	Lewis & Clark County	\$ 44,645.30
DOJ Byrne Formula Missouri River Drug Task Force	16.738	Park County Sheriff	\$ 29,618.40
			\$ 175,544.43

(Broadwater County chose not to participate financially in FY15, the \$4,405.10 from their subrecipient agreement was allocated to Lewis & Clark County for the purchase of Clandestine Lab Abatement Equipment.)

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of County Commissioners
Gallatin County, State of Montana

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Gallatin County, State of Montana (the County), as of and for the year ended June 30, 2015, which collectively comprise the County's basic financial statements and have issued our report thereon as of January 25, 2016.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent (or detect and correct) misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented (or detected and corrected) on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify a deficiency in internal control over financial reporting, described in the accompanying schedule of findings and questioned costs as finding 2015-01 that we consider to be material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Gallatin County Response to Finding

Gallatin County's response to the finding identified in our audit is described in the accompanying schedule. Gallatin County's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance, and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Anderson Zur Muehlen & Co., P.C.

Bozeman, Montana

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH
MAJOR PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

To the Board of County Commissioners
Gallatin County, State of Montana

Report on Compliance on Major Federal Program

We have audited Gallatin County, State of Montana's (the County) compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the year ended June 30, 2015. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance on each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements (referred to above), which could have a direct and material effect on a major federal program, occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

Opinion on Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2015.

Report on Internal Control over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent (or detect and correct) noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency (or combination of deficiencies) in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented (or detected and corrected) on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency (or a combination of deficiencies) in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Year Ended June 30, 2015

Identification of major programs:

20.993 National Infrastructure Investments – TIGER IV

20.205 Highway Planning and Construction

20.106 FAA - Airport Improvement Program

Dollar threshold used to distinguish between Type A and Type B programs: \$300,000

Auditee qualified as low-risk auditee? Yes

Prior year findings:

None reported.

GALLATIN COUNTY, STATE OF MONTANA
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
Year Ended June 30, 2015

Section II – Financial Statement Finding
2015-01 Cash Reconciliations and Processes

Criteria:

Processes, systems, and controls should support the timely, accurate, and complete recording, reconciliation, and reporting of cash transactions and balances.

Condition:

The County's process and systems for recording cash transactions is insufficient to ensure timely and accurate recording of cash transactions. High volume, reliance on spreadsheets, complexity of transactions, existing systems, and heavy workload all contributed to errors and omissions in accounting for cash transactions. Specifically, we noted the following: (1) 52 items totaling \$112,952 that had cleared the County's bank accounts, but had not been recorded in the County's records; (2) three checks totaling \$775,539 which were written in June 2015, but not mailed to their intended recipients until October; (3) a deposit for \$85,103 from the Justice Court, which should have been recorded in June 2015, but was recorded in July 2015 and deposited in August 2015; (4) a transfer in progress between accounts, which was excluded from the receiving bank reconciliation; and (5) 63 receipts which were received in June 2015, but recorded in July 2015.

Context:

The County has eight deposit accounts in local banks, with balances totaling \$23,220,386 as of June 30, 2015.

Effect:

Cash balances were understated by \$1,336,094 as of June 30, 2015.

Cause:

The County utilizes software to record cash receipts. This software is not utilized for reconciling cash balances. The County also enters all cash receipts into spreadsheets used to summarize cash position. As a result, many transactions are entered twice. The extensive use of spreadsheets in an entity's financial reporting process and control structure increases the risk of manual errors. Spreadsheets can be modified, may contain formula errors, lack an audit trail, and may not have adequate access controls. The process to ensure completeness of cash transactions is insufficient to meet the reporting objectives for cash.

Recommendation:

The County should review the functionality of its cash receipts software to determine if it is sufficient to support the financial reporting objectives related to cash. The system for recording and reconciling cash should be reviewed for efficiency to ensure that transactions can be recorded timely, and reviewed for completeness at the end of the reporting period.

Re: Official Response to Finding

Dear Kyla Stafford:

We are submitting our official response to the finding listed in your report. The Treasurer will implement new procedures and enhance current procedures necessary to correct the finding in your report.

Gallatin County is committed to correcting the deficiencies in our control activities and methodologies to ensure proper financial reporting. The following is our response to the condition:

Section II – Financial Statement Finding 2015-01 Cash Reconciliations and Processes

Condition:

The County's process and systems for recording cash transactions is insufficient to ensure timely and accurate recording of cash transactions. High volume, reliance on spreadsheets, complexity of transactions, existing systems, and heavy workload all contributed to errors and omissions in accounting for cash transactions. Specifically, we noted the following: (1) 52 items totaling \$112,952 that had cleared the County's bank accounts, but had not been recorded in the County's records; (2) three checks totaling \$775,539 which were written in June 2015, but not mailed to their intended recipients until October; (3) a deposit for \$85,103 from the Justice Court, which should have been recorded in June 2015, but was recorded in July 2015 and deposited in August 2015; (4) a transfer in progress between accounts, which was excluded from the receiving bank reconciliation; and (5) 63 receipts which were received in June 2015, but recorded in July 2015.

Recommendation:

The County should review the functionality of its cash receipts software to determine if it is sufficient to support the financial reporting objectives related to cash. The system for recording and reconciling cash should be reviewed for efficiency to ensure that transactions can be recorded timely, and reviewed for completeness at the end of the reporting period.

Response:

The County is in the process of reviewing the functionality of our cash receipt software. Additionally, the County is assessing the current process of recording and reconciling cash timely, efficiently and transparently to allow for improved ease of verification by all interested parties.

In response to the five items identified in the ‘Condition’ statement we have determined that changes in our process and procedures will decrease the potential for a reoccurrence of these problems. Specifically:

- 1) Items recorded in bank accounts are to be recorded in the County Records (Eden):

The Treasurer’s Office has instituted a 30 day deadline, from the date of deposit or notification of such, for all departments/agencies to submit all required documentation in order for the revenues to be recorded in Tyler. Revenues for which documentation has not been received after the 30 day deadline will be recorded into Tyler in the department’s/agency’s operation fund.

Without exception, all revenues received on or before June 30th, will be recorded in June.

- 2) Checks written in June but not mailed until October:

Treasurer’s current office policy is to mail all checks when written. This was a unique situation with three (3) checks written in June. The three (3) checks were associated with resolving multiple years of tax protests which were resolved between the State of Montana and three (3) large Communication companies. Also during fiscal year 2015, Treasurer’s tax software (Tyler) implemented a new protest release program which had a few glitches. The combination of both issues created the Treasurer needing extra time to verify the refund checks were correct. The tax software vendor has been notified of the errors and is implementing corrections during fiscal year 2016. Treasurer has updated office policy to read “A check or checks will not be written nor transactions processed if the check(s) cannot be mailed when written”.

- 3) Omission of Justice Court check from June records:

Procedures have been implemented within the Treasurer’s Office so recognition of all revenues to be recorded in a fiscal year are identified, processed and recorded properly.

- 4) Transfer in process not recorded before year-end:

All Offices/Agencies/Departments will continue to be reminded of year-end deposit and accounting deadlines. The Human Resources Office, who did not properly

deposit or identify June's revenue activity resulting in this event, has been made aware of the issue. Processes in the Human Resources Office are being updated to ensure all revenues received or issued by the end of each month will be properly identified and deposited within the proper period.

5) Receipts made before the end of June, but not recorded until the next fiscal year:

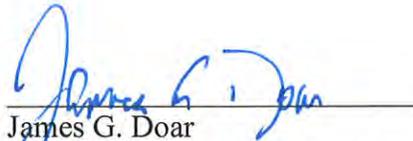

The Treasurer has implemented internal office procedures to ensure receipts are recorded in the proper month. Unresolved receipts will be deposited and recorded in a holding account until it is resolved. In the event receipts cannot be properly applied, the Treasurer's Office will issue a refund check and record the transaction appropriately.

In an effort to streamline cash confirmation throughout a fiscal year, the Internal Auditor's Office, no less than quarterly, will review the cash reconciliation between Gallatin County's bank accounts, Tyler and EDEN to ensure accuracy as well as to identify and report any discrepancies.

Respectfully submitted:

R. Stephen White
Gallatin County Commission

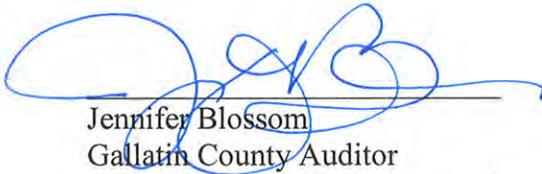

James G. Doar
Gallatin County Administrator

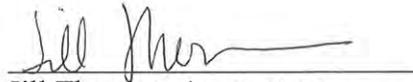

Kimberly Buchanan
Gallatin County Treasurer

Edward G. Blackman, Director
Gallatin County Finance

Jennifer Blossom
Gallatin County Auditor

Jill Therrien, Accountant
Gallatin County Finance
